• Styrofoam is **NOT** recyclable. It cannot be made into new products even though those who manufacture it want you to think it can.

• On average, Americans throw away 83 styrofoam cups per person per year.

• The total number thrown away in the U.S. per year is 25 trillion. That's enough to circle the globe more than 100 times.

*Please use real cups when possible. It will make a difference.*
