- Styrofoam is **NOT** recyclable. It cannot be made into new products even though those who manufacture it want you to think it can.
- On average, Americans throw away 83 styrofoam cups per person per year.
- The total number thrown away in the U.S. per year is 25 trillion. That's enough to circle the globe more than 100 times.

Please use real cups when possible. It will make a difference.
