Did you know: Certain dioxins are considered to be one of the most lethal human-made poisons, second in toxicity only to radioactive waste?

Did you know: Burning household garbage releases about 20 times more dioxin per pound of garbage than a state-of-the-art incinerator?

Did you know: Just three ounces of the wrong kind of dioxin can kill up to a million people?

Did you know: Dioxin can stay in the soil for centuries and build up in the fat cells through consumption of plants and animals?

Burning garbage is illegal, unhealthy and wasteful...so why do it?

For more information call the Environmental Services Department at 283-1157
