## New services added at library

The library now subscribes to Value Line, an independent investment research and financial publishing firm designed specifically to meet the highest needs of the professional investor. They deliver timely, accurate, and unbiased information in a professional format that integrates Value Line's fundamental research with quantitative disciplines.

Value Line expanded survey includes information on approximately 6,000 businesses. We have added this service at the request of several patrons. We can have up to two individuals in building and remotely accessing Value Line at a time. You can access this service via our website at <http://internationalfallslibrary.us/resources.html>. A user identification and password is required. If you know the standard library user ID and password, then you can access immediately. Otherwise you will need

Diane  
ADAMS

@ YOUR LIBRARY

to call and ask for the user ID and password or stop into the library and get a card with the information on it.

We will be evaluating the usage of this service for a year to determine if we have enough interest to maintain it. So please spread the word that it is now available and encourage friends and family interested in investing to utilize the resource.

The Arrowhead Library System has also added a new service available to all patrons in the area. BrainFuse Help Now! is Homework Help-Interact with live tutors in math,

science, reading/writing, social studies, PSAT/ SAT, ACT, AP and state standardized tests, Skills-Building, Personalized eLearning Tools, 24-Hour Writing Lab, Homework Send Question, and an Adult Learning Center with access to a library of rich adult learning content (GED) and live, professional assistance in resume/cover letter writing, U.S. citizenship prep, MS Office Essential Skills Series, and more.

You may access this service via the Arrowhead Library system website or via our website at <http://internationalfallslibrary.us/resources.html#education>. You will need your library card number to get into the site and will then create a username and password to fully access all the features of this site.

BrainFuse includes homework help but can also be valuable for adults looking for a job with resume assistance and computer skill building opportunities among other things.

While you are checking out our newest online resources, be sure and take a look at what the library has to offer our patrons even when the physical building is closed. You might be amazed at what you can learn and find out through reputable sources all day, any day.

We have auto and small engine repair information, consumer reports, home repair and improvement, career guidance as well as the traditional magazine and newspaper search sites.

So the next time you have a question you want answered on Sunday or at 2 in the morning, be sure and check out our website. We may be able to help you.

Last call! If you haven't checked out "Discover Tech: Engineers Make a World of Difference" now is the time. We are entering our last week hosting this wonderful exhibit. It will close on Friday, March 14, in preparation for being shipped to a library in Utah.

## PET OF THE WEEK

CONTRIBUTED PHOTO

Hi, my name is "Peach." I am a sweet girl who is wants to find her forever home. My dad had to make a tough decision and it was decided that he had to work on some things in his life and it would be best for me to find a different forever home. OK, back to me: 1. I don't like cameras; 2. I'm still getting used to my new surroundings; and 3. I want a person I can call

my own. I am a beautiful girl, but you can see that for yourself, and I really miss having a lap to snuggle up in. If you are lonely and have room in your heart for me, please adopt me. — Always yours, Peach
