Warning: The Polaris 600ESX and 600W are not intended for on-road use. Driver must be at least 16 years old with a valid driver's license to operate. Passengers must be at least 12 years old and tall enough to grasp the hand holds and plant feet firmly on the floor. All 600-series should have a safety harness system. Contact BEEMIDJI at 751-4477 for additional information. Drivers and passengers should always wear helmets, eye protection, protective clothing, and seat belts. Always use caution on dunes (no equipment). Use caution on dunes, terrain, heavy dunes on sandy terrain at dunes facilities. Never engage in blind driving, and avoid excessive speeds and sharp turns. Safety and maintenance (oil, fuel, track) should be done before every ride. It is up to the operator to ensure. Always wear seat belts and use proper safety equipment. Always use proper safety equipment and be sure to take a safety course on safety and proper driving techniques. For more information, contact BEEMIDJI at 751-4477. ©2013 Polaris Inc. All rights reserved.

The Mother Lode, built in 1942, was one of the tug boats used to tow log booms on local waters for the Minnesota and Ontario Paper Company.

***Above:* Silent Run Adventures also brought along this larger sled to the parade.**

Top left: Classic cars, like this 1965 Mustang convertible, were featured during Saturday's parade.

Bottom left: Border Driving School showed off this classic Pontiac Trans Am during the parade Saturday.

A black and white photograph of a person wearing a helmet and goggles, riding a Honda FourTrax Rancher ATV through a wooded area. The rider is wearing a quilted jacket and gloves. The ATV is kicking up a cloud of dust or dirt as it moves. The background shows a dense forest of trees. The overall scene is dynamic and adventurous.

No Sharing Data with NSA

The paired hearing aids that are currently available share data between each of the instruments. Each manufacturer has a different way to use the data. Phonak has a wind noise reduction system that turns off the microphones on the windy side and transfers the sound from the non-windy side to the windy side ear. Unitron uses the input for the microphones on both sides to locate the direction of the speech and directs both instruments to listen in that direction. Widex coordinates their Zen tinnitus stimulus so that the ears get a synchronized sound. Truly amazing!

We strive to provide all people with the means to improve communication. Call today to find out more about our commitment to provide quality instruments and superb service regardless of financial means.
