Library ready for October programs

Diane ADAMS

@ YOUR LIBRARY

The school year is settling down, fall is definitely in the air and the library is ready for October programs. Join us for some great programs this coming month.

We'll start the month out with family gaming on Saturday, Oct. 4, from 10:30 a.m. to 12:30 p.m. Come play a board game or two, new and old, for young and old.

Storytime continues each Thursday morning at 10:30 followed by Stay and Play at 11. The month of October will feature stories about forest animals, fire prevention, elephants, dinosaurs and scary Halloween tales on Thursday, Oct. 30. Storytime is geared to children ages 3 to 5 but everyone is welcome. Following storytime is about 30 minutes of playtime with our early learning science toys.

Crafty Tuesday is back with a craft activity available from 10 a.m. to 7:30 p.m. in the junior room. Come create, discover new skills and check out a book or two.

The library will be closed on Monday, Oct. 13, in observance of Columbus Day or Canadian Thanksgiving, depending on your viewpoint.

Thursday and Friday, Oct. 16 and 17, are no school days and we'll have our regular storytime Thursday morning, so bring the gang and enjoy elephant stories at 10:30. Teens (anyone in grades 7 and up) is welcome to come in from 2 to 5 p.m. and enjoy games and pizza. We have some new games for the Wii and PS3, great board games and we'll provide pizza and pop.

Friday, Oct. 17, at 10:30 a.m., the 3-2-1 Art Studio will present "Cartooning for Kids" an hour-long program on the basics of cartooning for anyone in kindergarten and up. Come start your own cartoon or comic strip.

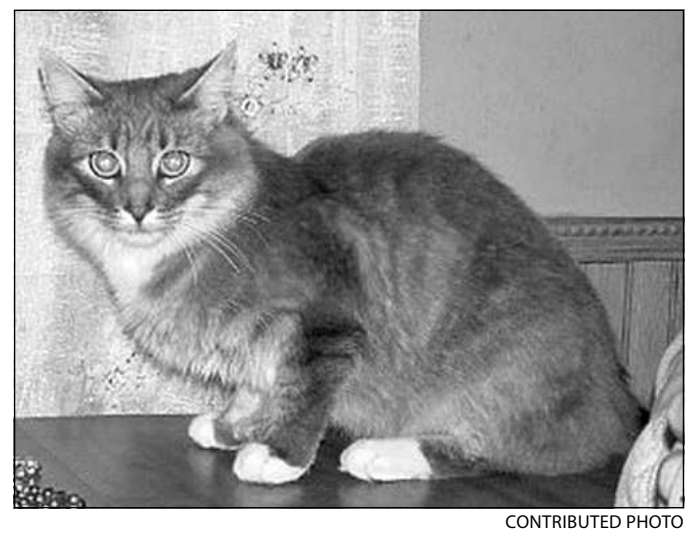
Saturday, Oct. 18, from 11 a.m. to 1 p.m., will be the monthly Friends of the Library book sale. All sales are by donation with proceeds benefiting the Friends support of library programming.

Monday, Oct. 20, beginning at 6:30 p.m., the library will hold its second paper airplane contest at Backus Auditorium. Come create paper airplanes then fly them from the balcony in the auditorium and see if you can get them to land on the stage. All ages are welcome to participate with prizes available for the planes that fly the farthest. We'll provide paper, some books with patterns and you provide the manpower to create the planes and throw them. An adult is required to be with children in the balcony.

Monday, Oct. 27, at 6:30 p.m., the library will show the documentary "A Girl and A Gun" which brings a female perspective to the debate raging across the nation. Following the 76-minute film will be discussion and refreshments.

If you have preschool children in your life, please stop by the library and pick up a "Reading Ready" booklet to record the books you read so they can earn free books and be ready to learn to read when they enter school. It isn't hard to have your children ready to read when they reach kindergarten especially if you start at birth.

PET OF THE WEEK



CONTRIBUTED PHOTO

"CopyKat" is a lovely lady, rescued in the middle of a thunderstorm and brought to safety. A 1-year-old, domestic medium hair, she is affectionate and loves the lap. Attention seeker and great listener. She will always be there for you if you are there for her. Spayed and up-to-date on shots soon.

For more information, visit the website at www.borderlandhumanesociety.org or call 218-324-2313 or 283-9276.

LOOKING BACK

25 YEARS AGO

What is new in hearing aids?

Hearing aids have moved beyond mere amplifiers of sounds. Gone are the passive "dumb" instruments. Now hearing aids are capable of connecting with other devices such as mobile phones, tablets, MP3 players, TVs and GPS devices. There are advanced systems to reduce the wind noise, to listen on the phone and to shift the audibility of high frequency sounds. Most hearing aids now exchange data from ear to ear. The hearing aids can use the 4 microphones to determine the direction of the speech signal and both hearing aids can be coordinated to enhance the reception of the targeted speech. These are not your Grandfather's old hearing aids!

The advent of the digital hearing amplifiers and miniature radio transmitters/receivers have made all these advanced features possible. We have seen the "premium features" of hearing aids manufactured a couple years ago become the "standard features" in the current line of hearing aids. The recent advancements in hearing aid technology come without significant increases in the cost of the hearing aids. This makes current hearing aids a great value.

We are here to provide the hearing solutions that will help you live a fuller and more enjoyable life. I have over 30 years of experience in helping people get more out of life through better hearing. Call to schedule your hearing evaluation and to start down the road to a fuller life.
