EVERYDAY RECYCLING TIPS

- Styrofoam is not recyclable. It can't be melted and made into new Styrofoam. It's all garbage.
- Each year Americans throw away 25 billion Styrofoam cups. It's enough to circle the earth more than 400 times.
- Plastic film has very little value in the recycling markets. Yet every year we make enough of it to shrink wrap Texas.
- If every home recycled 1 out of 10 plastic bottles they used, it would keep 200 million pounds of plastic out of the landfill each year.
- Recycling 1 ton of paper saves 7,000 gallons of water and 2 barrels of oil. In 2012 Koochiching County residents and businesses recycled about 4,000 tons of paper.
- Recycled paper has many uses. Some of the more common ones include insulation, gypsum wallboard, paper towels, envelopes, cereal boxes, pop boxes, and numerous other packaging products.

For more information call the Environmental Services Department at 283-1157
