Discover more at the library

It is time to have some fun. What do you geek? What makes you excited and want to know everything there is about that subject? The library wants to know. Share your passion with us and let us help you discover more. It is time to rediscover what makes us want to get up in the morning and keeps us going.

July is a busy month at the library including the movie “The Rescuers” being shown tomorrow morning in the meeting room beginning at 10:30. Join us for this classic movie and popcorn, too.

Then find your favorite teen and make sure they know that on Tuesday, July 15, at 1 p.m., we have an art program just for them. Come explore the world of Batik and create your own piece as you work with local artist Beth Nelson. And don’t forget that the chess club is meeting at the

library each Tuesday evening from 6 to 7 and Wednesday afternoon from 1:30 to 2:30.

The month of July is the midpoint in summer vacation and summer reading. Make sure the children in your life have access to books they want to read. Take a look at our collection of graphic novels, the incredible non-fiction to explore just about any subject, the funny, sweet or even stupid picture books or novels.

Summer is a great time

to just read what interests you and your child. So come down to the library and do some exploring, discover a new book, an old book or something in-between that makes you excited to read.

Here are a few suggestions from the junior room to try on for size. Have you ever realized that there is a camp for just about any interest or hobby. In “Kart Competition” by Jake Maddox, Ted is going to Kart camp and will spend the week racing, he is sure it will be the best ever, until the son of a famous race-car driver shows up and seems to be using unfair advantages to win.

Lemony Snicket is back with “File Under: 13 Suspicious Incidents.” It contains 13 cases investigated by Lemony Snicket during his apprenticeship in the town of Stain’d-by-the-Sea. The conclusions have

been hidden for security reasons, can you solve these cases?

“Tesla’s Attic” by Neal Shusterman and Eric Elfman is the first in a trilogy about Nick and his new (old) house in Colorado and the mysterious stuff he finds in the attic and the secret organization that wants all the stuff and will kill to get it.

Animal books are always popular and these two are sure to make someone excited. “How to Be a Dinosaur Hunter” is ‘your globe-trotting, time-traveling guide’ put out by lonely planet. The book is written by Scott Forbes and is a great guide to looking for dinosaur bones and other remains.

“Mutant Animals” by Sally Lee looks at crazy creatures altered by science including two-headed dogs, mice with ears on their backs and glow-in-the-dark cats.

MEMORIAMs

In memory of Millie Kalar, who passed away July 10, 1999.

The Rose Beyond the Wall

*A rose once grew where all could see,
Sheltered beside a garden wall.
And, as the days passed swiftly by,
It spread its branches straight and tall.
One day, a beam of light shone through
A crevice that had opened wide —
The rose bent gently toward its warmth
Then passed beyond to the other side ...
Now, you who deeply feel its loss,
Be comforted — the rose blooms there —
Its beauty even greater now,
Nurtured by God’s own loving care.*

PET OF THE WEEK

“Paula” is spayed and up-to-date on shots. Looking to be your special feline female. Personality cannot be measured on a scale of 1-10 because it is off the charts. Paula is reserved. She loves affection although doesn’t like to be rushed into it. It’s all about her time. Very friendly but not a good match for young children. An older person(s) would suit her best. Quiet home is preferred.
