## Hook rugs on exhibit at the library

The April exhibit in the library lobby is the incredible rugs hooked by local resident Judy Kielczewski. If you haven't stopped in, be sure and do so this week. They will only be here through April 30. She will come in Wednesday evening, April 30, from 6 to 7:30 p.m. and demonstrate rug hooking and answer questions you may have about the process.

The library has free tickets available for the next Border Concert on Thursday, May 1, at 7:30 p.m. Les Trompettes de Lyon is five renegade trumpet students who graduated from the Lyon Conservatory and are on their debut American tour.

Tickets are available on a first-come, first-served basis. You will be asked to fill out a short survey before getting your tickets. These free tickets are made possible by money from Minnesota's Arts and Cultural Heritage Fund through the Arrowhead Library

System. The money is not guaranteed and part of the process includes showing community support for the way the money is being used to continue receiving these funds.

The library has a copy of the "Rat Root River Sediment Control and Spawning Enhancement" book created by the Koochiching Soil and Water Conservation District in partnership with the Rainy Lake Sportfishing Club. It is available for check out and if checked out, it can be reserved for you to borrow when returned.

We all anticipate

warmer weather and things growing outside. That means it is time to plan summer projects around the house. Be sure and use the library's subscription to the Home Improvement Reference Center, an online resource available anytime you need it via our website at internationalfallslibrary.us/resources.html.

Designed to assist homeowners in do-it-yourself home repair, maintenance, and remodeling projects, Home Improvement Reference Center provides step-by-step instructions for thousands of projects in the areas of plumbing, outdoor, woodworking, electrical, and decorating in high-quality PDF files. Additionally, thousands of articles from magazines and reference books provide tips and suggestions to supplement the step-by-step project instructions.

And, if you are looking to make large purchases this summer, be sure to take a look at

Consumer Reports for reviews, comparisons and more. The library has a subscription to the online version (as well as print copies). You can search from home anytime you find yourself needing to find reviews of cars, washers, laptops, cameras and more. The online version has more reviews, and additional information not found in the print editions.

You will find a link from our website as listed above. Many of the online resources require a user ID and password. We have set up these resources to all have the same user id and password. You may call the library and ask us for the user id and password or stop in the library and pick up a postcard with information about the online resources including how to access them.

If you are planning to travel this summer, be sure and check out our electronic book, audiobooks and magazines.
