

Know the Signs of a Natural Gas Leak

Natural gas is one of the cleanest and safest energy sources available, but leaks can occur in rare instances.

Signs of an **indoor gas leak**:

- An odor that smells like rotten eggs.
- Unusual noises coming from your gas equipment.

Signs of an **outdoor gas leak**:

- Dirt or debris being blown into the air.
- Persistent bubbles from wet areas on the ground.
- Vegetation over or near a pipeline appears discolored or dead.

If you smell natural gas or notice any of these signs, leave the area immediately. **Do not** attempt to find the leak yourself. **Do not** turn on or off any electrical switches. **Do not** use the telephone in your home. Leave immediately, go to a nearby phone and call Enbridge Gas North Carolina at **1-877-776-2427** and **911**. We'll send someone right away to investigate.
