

A NEW INVENTION

THE LIGHT BULB WAS MADE BY THOMAS EDISON. IT WAS MADE ON OCTOBER 11, 1879. NOW NO ONE HAS TO USE CANDLES ANYMORE.

THE LIGHT BULB

Thomas Edison was the youngest child. Thomas had vary little education. When he grew up he started his own company and was a business leader.

This is how the light bulb works you half to flip a switch and then electricity goes through wires and into a bilding.

It is important because if he had not made it would be all dark. Another thing is that if there was no light people could get hurt.

n conclusion Thomas Edison is a really great man and inventor. He made a vary great invention .

HE STARTED SCHOOL AT SEVEN YEARS OLD. HE HAD HEARING LOSS. ALSO EDISON WORKED FOR THE GOLD AND STOCK REPORTING TELEGRAPH COMPANY
