

ALEXANDER GRAHAM BELL

* THE TELEPHONE SO YOU CAN CALL PEOPLE ON THE PHONE
INCASE IT WAS AN INMGNSEYE OR YOU GOT LOST OR YOU
GOT IN A CRASH. *

TELEPHONE

Alexander Graham Bell. When he made the telephone June 2, 1875. Where he made the telephone at the MIT.

A sound waves from a human's voice. The sound waves are carried to a thin meta disk inside the phone. sound waves are caring the other person voice to the other side so the other person can here it.

So people can communicate with people that are far away from your house or they are far away from other family members like your cousin or your ant.

The telephone is super cool because it douse a lot of cool stuff like you can call people.

**ALEXANDER
GRAHAM BELL'S
BIRTHDAY IS ON
MARCH 3RD.**
