

# SHINE ON YOU

I AM TELLING ABOUT THE LIGHT BULB .THE LIGHT BULB GIVES LIGHT. THE LIGHT BULB CAN BE FOUN IN HOMES ,STRESS,AND LIGHTHOUES. IF YOU DON'T HAVE LIGHT YOU COULD NOT SEE.

## THOMAS EDISON

Thomas Edison made the light bulb. Thomas made the light bulb on October 21, 1879. The light bulb was made at Menlo Park. Thomas was not the first one to make the light bulb. Thomas Edison was partailly deaf and had a scarlet fever.

By electricity because Thomas Edison light up 85 homes with light bulb at once. With no electricity the light bulb would not light up. With electricity light will be on and you could see and will be shining.

Light bulb are important because it gives light to see. Light is important because if the lights are out we have flashlights and phones. Light bulb are important because you nee it to do work.

I am telling about the light bulb because it is helpful for people to git light to see.

**THOMAS EDISON  
WAS CALLED THE  
WIZARD OF  
MENLO  
PARK.**
