

# WHAT'S THAT BRIGHTNESS?

Thomas Edison invented the light bulb. It's bright new and improve ! Forget about darkness,If you buy a light bulb you can have brightness though the day and night!

## LIGHT BULB

Thomas had scarlet fever that caused bad hearing. He had six siblings. Some of them died. October 21st, 1879 he created the first light bulb! At Menlo Park New Jersey. were he had many employs.

Do you ever wonder how light bulbs are made? They had to replace the platinum filament, and built one with bamboo. It burned for 1,200 hours. He perfected the first light bulb.

Sometimes during the day it may be really gloomy. But now we have light bulbs. It won't be dark. now we can have brightness all day if we need it to. I think we were all thrilled to have light bulbs.

In conclusion the light bulb is significant. If you buy a light bulb it will never be gloomy if you want it to be. The light bulb is Thomas best invented yet.

**BEFORE HE WAS  
AN INVERTER  
HE HAD MANY  
JOBS ,ONE WAS  
WORKING AT A  
RAIL RODE**
