

LIGHT BULBS

THOMAS EDISON MADE THESE LIGHT BULBS. LIGHT BULBS ARE BRIGHT SO YOU CAN SEE AND YOU CAN TURN IT ON SO YOU CAN SEE. YOU CAN PUT THE LIGHT BULB IN A LAMP AND TURN IT ON AND IT WILL WORK.

THOMAS EDISON

Thomas Edison invented light bulbs on October 21, 1879 in Menlo Park, NJ.

You put it in the lamp then you turn it on and it needs electricity to work.

So you can see if it is dark and if you don't turn on the light you can not see.

In conclusion, Thomas Edison made the light bulbs and they work.

THOMAS
EDISON WAS
DEAF AND HIS
MOM WAS TO.
