Dear President Ronald Reagan,

Are you going anywhere yhis summer?If not I would like to have you come and visit us on our ranch.I would appreciate your company out here.You might get an inside look in farming.It might be quite an experience for you. You could learn hbw to run a ranch and you just might relize the finacial state that many farmers are in.You will probably relize how much farmers risk at trying to decied what crops to plant,if the weather is going to be suitable for growing a certain crop,and which crop you are going to make the most money off of.Farming is a risk,you never know if what you are doing is right until it is to late.We would enjoy your visit very much!In fact we would be thrilled at the oppertonite of you coming out here and discovering what ranch life is about!!
