TOWN EMERGENCY ORDINANCE 1249
AN EMERGENCY ORDINANCE TO STAY-AT-HOME FOR ALL WITHIN THE TOWN OF JACKSON TO LIMIT THE SPREAD OF COVID-19 IN THE TOWN OF JACKSON; AND OTHER RESTRICTIONS WITHIN THE TOWN OF JACKSON, WYOMING; DECLARING AN EMERGENCY, PROVIDING FOR AN EFFECTIVE DATE AND A TIME FOR TERMINATION. BE IT ORDAINED BY THE TOWN COUNCIL OF THE TOWN OF JACKSON, WYOMING, IN REGULAR SESSION DULY ASSEMBLED, THAT:
SECTION I. WHEREAS, on or about December 31, 2019, a new and significant outbreak of pneumonia with an unknown source was detected in Wuhan City, Hubei Province China. WHEREAS, the World Health Organization declared the outbreak of COVID-19 as a worldwide pandemic as of March 11, 2020; and WHEREAS, there is currently no vaccine or drug therapy available for COVID-19; and WHEREAS, the

President of the United States declared a national emergency concerning the novel coronavirus disease (COVID-19) on March 13, 2020, specifically stating that in "December 2019 a novel (new) coronavirus known as SARS-CoV-2 ("the virus") was first detected in Wuhan, Hubei Province, People's Republic of China, causing outbreaks of the coronavirus disease (COVID-19) that has now spread globally. . . . The spread of COVID-19 within our Nation's communities threatens to strain our Nation's healthcare systems. . . . Additional measures . . . are needed to successfully contain and combat the virus in the United States." The National Emergency Declaration went on to declare that the COVID-19 outbreak in the United States constitutes a national emergency, and the State of Wyoming is experiencing a public health emergency in response to the evolving outbreak of the novel coronavirus as of March 11, 2020; and WHEREAS, Mark Gordon, Governor of the State of Wyoming, declared a State of Emergency for the State of Wyoming on March 13, 2020, stating that on March 11, 2020 an individual within the State of Wyoming tested presumptive positive for COVID-19 and the State of Wyoming is experiencing a public health emergency in response to the evolving outbreak of the novel coronavirus as of March 11, 2020. The Declaration of a State of Emergency directs the Director of the Wyoming Department of Health to take all appropriate and necessary actions and in the Director's judgment any actions necessary to provide aid to those locations where there is a threat or danger to public health, safety and welfare"; and WHEREAS, Teton County is an isolated rural community with a single small hospital with limited resources including only six (6) Intensive Care Unit beds and no critical care specialists, the University of Utah healthcare system, which usually accepts transfer of critically ill patients from Teton County, is closed to outside transfers due to the overwhelming case volume of COVID-19 in their community, other regional referral centers are expected to take similar measures soon, and Teton County Hospital District is therefore already taking on an increased caseload of critically ill patients with diagnoses other than COVID-19 who normally would be immediately transferred elsewhere; and WHEREAS Teton County Hospital District routinely serves patients not only from within Teton County but also from Lincoln County, WY, Sublette County, WY, Fremont County, WY, and parts of Eastern Idaho who will further stress its capacity, making it critical that Teton County take steps to slow the spread of COVID-19 infection so as not to overwhelm the local healthcare system in such a way that would result in many preventable deaths; and WHEREAS, Teton County presently has more than ten (10) confirmed cases of the Coronavirus (COVID-19) with documentation of community spread with over half of cases in the last 48 hours, indicating a rapidly increasing rate of transmission; WHEREAS, this evidence shows that Covid-19 is now aggressively spreading across the community with the confirmation of community spread of COVID-19 in Wyoming and, specifically, the Teton County Health Department confirming community spread in Teton County, Wyoming, which indicates a significantly increasing risk of exposure and infection to Town of Jackson residents and creates an extreme public health risk; and WHEREAS, local hospital administrators and health care providers have expressed concerns that unless the spread of COVID-19 is limited, existing health care facilities may be insufficient to care for those who become sick; and WHEREAS, Dr. Travis Riddell, MD serves as the Teton District Health Officer pursuant to Wyoming Statute §35-1-306(a) and this Ordinance is enacted in accordance with his advice and expertise and the measures herein are the least restrictive measures necessary to protect the public from the COVID-19 pandemic and prevent the overwhelming of the community's medical resources; and WHEREAS, this Ordinance is enacted on the advice of leading national health authorities that no locality, regardless of whether they have already identified COVID 19 cases, will be immune from the spread of the virus, particularly given the absence of reliable testing protocols in most jurisdictions; scientific evidence regarding the most effective approaches to slow the transmission of communicable diseases generally and COVID-19 specifically; as well as best practices as currently known and available to protect vulnerable members of the public from avoidable risk of serious illness or death resulting from exposure to COVID-19. Although most individuals who contract COVID-19 do not become seriously ill, persons with mild symptoms and asymptomatic persons with COVID-19 may place other vulnerable members of the public at significant risk; and WHEREAS, given the Town's prominence as a tourist destination for domestic and international travelers, and given the risk of transmission of COVID-19 through public contacts among visitors, locals, and the service providers in close contact where people gather, the Town Council has determined that the closure of venues and facilities where members of the public congregate within the Town is critical to minimize the risk of expedited transmission that would, if unimpeded, place an overwhelming burden and have devastating impacts on the community's healthcare systems, facilities, supplies, and providers; and WHEREAS, this Ordinance will reduce the likelihood that most high-risk individuals will be exposed to COVID- 19, and it will thereby slow the spread of COVID-19 in our community. By reducing the spread of COVID-19, this Ordinance will help preserve critical and limited healthcare capacity in the Town; and WHEREAS, Wyo. Stat. Ann. §15-1-103(a)(xviii) empowers "[t]he governing bodies of all cities and towns [to]: . . . [r]egulate, prevent or suppress riots, disturbances, disorderly assemblies or parades, or any other conduct which disturbs or jeopardizes the public health, safety, peace or morality, in any public or private place" and the Town finds that the activities being restricted by this Ordinance severely jeopardize the health, safety, welfare and lives of the residents of the Town of Jackson; and WHEREAS, Wyo. Stat. Ann. §15-1-103(a)(xli) empowers "[t]he governing bodies of all cities and towns [to]: . . . [a]dopt ordinances, resolutions and regulations, including regulations not in conflict with this act and necessary for the health, safety and welfare of the city or town, necessary to give effect to the powers conferred by this act" and the Town finds that this Ordinance is not in conflict with state statute and that this ordinance is necessary for the health, safety, welfare and lives of the residents of the Town of Jackson; and WHEREAS, Wyo. Stat. Ann. §15-1-103(xix) empowers "[t]he governing bodies of all cities and towns [to]: . . . "declare and abate nuisances and impose fines upon parties who create, continue or permit nuisances to exist" and the Town finds that this Ordinance is necessary to abate the nuisance of COVID-19 to protect and preserve the health, safety, welfare and lives of the residents of the Town of Jackson.

PROPOSED DISCHARGE OF DREDGED OR FILL MATERIAL TO GRANITE CREEK

The Wyoming Department of Environmental Quality (WDEQ) has received a request from Alder Environmental, LLC on behalf of CNM/MBM Mathieu Family, LLC for State certification of U.S. Army Corps of Engineers (USACE) Nationwide Permit #29, for discharge of dredged or fill material to Granite Creek and adjacent wetland near Teton Village, Wyoming. The project involves construction of a bridge and installation of buried power and fiber optic lines associated with a new residential development. Proposed activities include installation of concrete abutments for the new bridge resulting in incidental fill and excavation in 0.0026 acre of wetland adjacent to Granite Creek. The installation of buried utility lines will result in temporary impacts to Granite Creek and adjacent wetlands.
