

## **Yellowstone Helicopters Signs Deal to Operate Wind River Air Tours – Taking Community Compatibility and Unmatched Experiences to New Heights**

Jackson, Wyoming, May 23<sup>rd</sup>, 2023 – Yellowstone Helicopters, a leading provider of Helicopter Flight Services, is thrilled to announce we have entered into an operating agreement with Wind River Air to assume their Scenic Air Tours. Combining industry leading safety, care for our environment and a passion for providing guests with unmatched views, Yellowstone Helicopters is revolutionizing vertical experiences and taking exploration to new heights.

With a deep passion for aviation and a commitment to responsible operation, Yellowstone Helicopters offers a wide array of meticulously crafted helicopter flight experiences that cater to every traveler's desires. Our tours showcase the beauty and grandeur of the region in the least impactful way possible – By Air! We leave nothing behind and take only memories. We provide experiences to all, from families to those who are mobility challenged. "Our experiences have very few boundaries for those with mobility challenges. We can provide access to our natural world for the very young, the aged, and those with mobility challenges" notes Max Power, Director of Customer Experience with Yellowstone Helicopters. Max continues: "Flying with us provides the ability for all to enjoy our natural world from a truly unique perspective."

"We are excited to introduce our take on the existing tour operations in this region," said Spokesperson Max Power, Director of Customer Experience at Yellowstone Helicopters. "Our model is predicated on minimum operation, and we do not have plans to increase flights or add helicopters outside of the one we utilize in the area. Our team is dedicated to safe, responsible, eco-friendly experiences, and have reduced the number of tour offerings, resulting in personal curated experiences while balancing the needs of the environment" Max added. "The company is operated by dedicated outdoor enthusiasts, focused on delivering experiences that capture the essence of our environment while leaving no trace that we were ever there.

Yellowstone Helicopters operates modern turbine powered helicopters which offer excellent reliability at reduced sound signatures. Piloted by highly trained and experienced aviators, we provide safe on demand charters, surveys, photo flights, scenic tours, and utility services. The tours provide passengers with a safe and unforgettable experience from takeoff to landing.

What sets Yellowstone Helicopters apart is their unwavering dedication to safety and customer satisfaction. From the moment guests step on board, they are treated to unparalleled service and attention to detail. The knowledgeable and friendly staff are always on hand to answer questions, advocate for our environment, and ensure a seamless and enjoyable experience for all.
