## GENERAL PUBLIC NOTICES

CATEGORICAL EXCLUSION DETERMINATION  
For the Squaw Creek Water District and Squaw Creek Water  
District Transmission line replacement,  
Teton County, Wyoming

The Department of Environmental Quality/Water Quality  
Division (DEQ) has conducted a review of the proposed Squaw  
Creek Water District Transmission line replacement  
project in accordance with EPA and State of Wyoming proce-  
dures for implementing the State Environmental Review Pro-  
cess. DEQ has determined that this project is eligible for a cat-  
egorical exclusion. Accordingly, DEQ is exempting the project  
from further substantive environmental review requirements  
under the State Environmental Review Process. Neither an  
Environmental Assessment/Finding of No Significant Impact  
nor an Environmental Impact Statement/Record of Decision  
will be required for the proposed action. The following is a  
brief description of the situation and the proposed action, and  
a brief statement of how the action meets the criteria for a  
categorical exclusion.

The Squaw Creek Water District is undergoing a project to  
replace their water transmission line. The total cost of the project is estimated at \$328,950 and is an-  
ticipated to be funded by a State Revolving Fund loan. Repay-  
ment of the loan will be done utilizing funds collected through  
water assessments to Squaw Creek Water District customers.  
No increase in user fees is anticipated to repay the loan.

The Squaw Creek Water District is aware of and accepts the  
fact that they will be responsible for any required mitigative

actions associated with and including storm water runoff,  
erosion control, archeological/historic artifacts, and air quality  
concerns. These will be part of the standard State Revolving  
Funds Program contract conditions.

DEQ is granting an exclusion because the work performed  
as part of this project is not anticipated to have significant  
environmental impacts. DEQ has determined that exempt-  
ing the proposed project from further review under the State  
Environmental

Review Process will not result in adverse impacts to the popu-  
lation or the area of the Squaw Creek water District, and Teton  
County, Wyoming. The Project replaces or rehabilitates existing  
infrastructure. This project will be completely constructed in  
previously disturbed ground, specifically ground disturbed  
by excavation and previously installed water lines. DEQ has  
determined that exempting the proposed project from further  
review under the State Environmental Review Process will not  
result in adverse impacts to the population or the area of the  
Squaw Creek water District, and Teton County, Wyoming.

The determination shall become effective upon distribution  
by the Department and may be re-evaluated and the deter-  
mination changed at any time that adverse information is  
made available. The documentation to support this decision  
will be on file in the DEQ Cheyenne Office and is available for  
public review upon request. To request a copy of the categorical  
exclusion, contact:
