PROPOSED DISCHARGE OF DREDGED OR FILL MATERIAL TO JACKSON LAKE

The Wyoming Department of Environmental Quality (WDEQ) has received a request from the National Park Service for State certification of U.S. Army Corps of Engineers Nationwide Permit #18 for the discharge of dredged or fill material to Jackson Lake in Grand Teton National Park, Wyoming. The purpose of the project is to secure the existing courtesy dock at the Signal Mountain boat ramp in Jackson Lake. All waters within Grand Teton National Park are designated Outstanding Resource Waters where point source discharges are prohibited except for storm water and construction-related discharges. This certification will require meeting the provisions in Chapter 1, Section 13 (a)(iii)(A) and (D), of the WDEQ Water Quality Rules and Regulations, which allow these discharges under certain circumstances. Proposed activities include repositioning the current anchor and adding a second concrete dock anchor. To do this, 1 cubic yard (CY) of alluvial materials will be excavated to secure both anchors below the existing lake elevations. Approximately 0.89 CY of concrete and 1 CY of redistributed alluvial material will be placed in Jackson Lake to construct features. No permanent impacts to wetlands are anticipated.

Requests for information about the proposed water quality certification should be directed to James Tarzon by email (james.tarzon1@wyo.gov) or phone (307-777-6701). Written comments must be addressed to James Tarzon, Wyoming DEQ/WQD, 200 W. 17th Street – 4TH floor, Cheyenne, WY, 82002, and be postmarked on or before 5:00 p.m. on November 11, 2026, to be considered. Electronic comments may only be submitted through and accepted by the Wyoming DEQ comment portal provided at http://wq.wyomingdeq.commentinput.com/. Phone comments will not be accepted. Para español, visite deq.wyoming.gov. Americans with Disabilities Act: special assistance or alternative formats will be made available upon request for individuals with disabilities. Please provide at least fourteen (14) days before the close of the public comment period for such requests.
