Which two scenes are exactly alike?

Answer -- Numbers one and three. Differences -- Dress and lamb leg.

The circus manager says someone stole his gold watch. The clown insists she saw the acrobat raccoon climb in and out of the trailer window. Max Mouse says the prints don't match, but Slylock Fox suspects the clown is telling the truth. Why?

Solution -- The raccoon has five digits on his hands but only four on his feet. As a circus acrobat, he could walk on his hands, leaving prints that match his five-digit hands.
