we’re ready when you are

Wake Forest Baptist Health looks forward to welcoming you back. As we resume surgeries and in-person care, our promise is to keep you safe, healthy and COVID-19-protected.

Following the advice of our Infectious Disease experts, we are:

- Practicing social distancing in all of our clinic locations.
- Minimizing wait times in common areas.
- Asking our patients to join all providers and clinic staff wearing masks and providing masks upon arrival.
- Limiting visitors, with few exceptions.
- Cleaning our facilities following strict sanitation protocols.
- Conducting screenings for COVID-19 symptoms—for our providers and for you upon arrival.
- Providing COVID-19 testing for all patients undergoing surgery.
- Offering expanded access to virtual visits via phone or video.
- Staffing ten designated respiratory assessment clinics for patients with COVID-19 or flu-like symptoms, separate from regular clinic locations.

Christopher Ohl, MD
Infectious Disease Specialist
