Ethan feels safe and
secure at home. But it
almost didn't happen.

Ten months ago, Ethan's dad was out of work and suffering from financial stress and loss of self-esteem. Emotions at home were at an all-time high.

Ethan was frightened, worried and unable to focus. But thankfully, he was already enrolled in our Head Start program – a comprehensive Pre-K program that also requires the participation of each child's family in the learning process.

Through Head Start, Ethan's dad also sought counseling at Family Services, where he learned to cope with his stress and to feel more confident in seeking a new job.

**WHAT HAPPENS BY AGE 5
WILL LAST A LIFETIME.**

Now Ethan's home life is much improved, and this precocious 4-year-old is on the path to success in school – and in life.

**PRE-K PROGRAMS
ARE WORKING.
HELP US EXPAND
THEIR IMPACT.**
