Response Highlights

RURAL

"The money should be use[d] for its purpose not to string another project together." - J. C.

"I think they need more affordable good housing for the elderly" - J. F.

"No put it in schools" - J. R.

"Ok facility but should be in [the] center of [the] county---Oakland" - S.K.

"I would prefer, as a mental health professional, to see the money not spent on a brick and mortar facility, but for the funding of greater access to mental health and substance abuse treatment. If it needs to go toward building a facility, I, again, would rather it go toward building a MH/SA facility with a full continuum of care for those populations, for both adults and children/adolescents. I also believe children and adolescents are more in need of these continuum of care services than adults are in Council Bluffs at this time. I hope this response is helpful. I'm happy to answer further questions you may have. Thank you." - D. T.

[Responding to 'Who is UTST?' canned response] "Ok. Thank you . We have to be[]careful these days.. Im in southwe(r)[s]t iowa . Please keep contacting many more in sw iowa as they say they are neglected at times. Appreciate this" - A. B.

"And it better use union labor" - D. G.

COUNCIL BLUFFS PROPER

"I believe they need to do something about the homeless also" - M. B.

"Let's build homeless shelters" - C. R.

"No I do not agree. Pott. County needs affordable housing. We have a lot of homeless people here in Council Bluffs. And I have photos to prove it. Mental health & addictions are bad here." - D. M.

"How about you build a middle class Healthcare center for those of us drowning under out of control medical expenses. We already have services for the low income portion of the population." - D. H.

[Responding to 'Who is UTST?' canned response] "I appreciate your response. Based on that, I'd say we, as the public, need the chance to give our input to the Board of Supervisors. Don't we have enough public health infrastructure now?" - G. S.
