Workers at the New Millennium plant in Butler weld steel joists. A manufacturer of steel joists, joist girders and deck solutions for commercial steel construction projects, New Millennium was founded in Butler in 1999 and celebrated its 25th anniversary on May 2. New Millennium, a division of Steel Dynamics, now operates seven plants across North America with headquarters in Fort Wayne.

While rain has slowed its progress, a new mural is taking shape in Waterloo. Artist Amy Buchs is painting this design on the east side of the Gibson building, just west of Wayne Street. The banner in the foreground shows how the finished mural will appear. The mural is being created in partnership with Gibson's Heating & Plumbing, Waterloo Elementary School and the Town of Waterloo.

Building On A Foundation Of Unmatched Pride

Exciting developments are taking place at DeKalb County Eastern Schools as we grow stronger, foster deeper connections, and inspire the next generation.

LITERACY COORDINATORS

Literacy coordinators play an important role in improving reading and writing instruction by supporting teachers, aligning curriculum, and using student data to guide instruction. Their work helps identify and support young readers while promoting consistent, effective literacy practices. DeKalb County Eastern CSD has two literacy coordinators who serve both elementary schools, ensuring strong collaboration and continuity across the district.

PROFESSIONAL STAFF DEVELOPMENT

Professional Development days are essential for every member of the school community from teachers and office staff to maintenance, cafeteria, and transportation teams. These days sharpen skills, elevate safety and operations, and unite everyone around a shared mission. More than training, they build a powerful school culture rooted in collaboration, trust, and strong partnerships creating an energized environment where both students and staff thrive.

"We must take care of the people who take care of the students." — Ryan Abbott, Superintendent

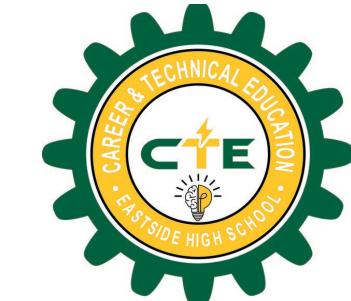

Connection

Growth

Well-Being

Engagement

GOAL: Excellence In Education

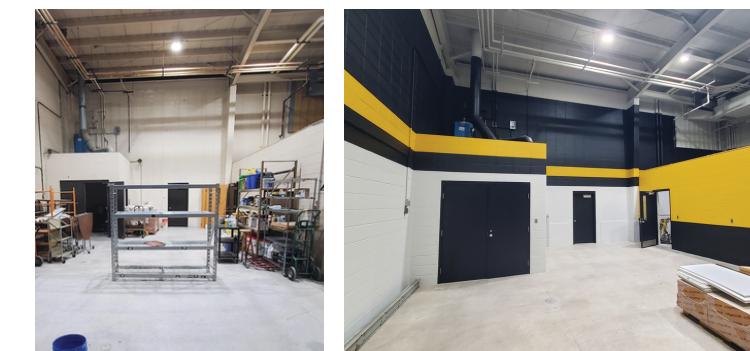

Building a strong Career and Technical Education (CTE) program is essential because it prepares students with practical skills, real-world experience, and career readiness. CTE programs connect academic learning to workforce needs, provide pathways to high-demand careers, and help students graduate with industry-relevant knowledge, certifications, and confidence for success after high school.

DIESEL MECHANICS IN 2026-2027

Build your future with the Diesel Services program where hands-on learning meets real-world opportunity. Students train in a professional shop using industry-standard equipment while developing in-demand skills in diesel diagnostics, repair, and preventative maintenance. With dual credit coursework, paid internship opportunities with MacAllister, and a direct pathway to employment after graduation, students graduate job-ready and career-focused.

"Our students have grit. When CTE is done right, we give them the tools and opportunities to build their future, strengthening our community and our local talent pipeline in the process."

— Jessica Shull, CTE Coordinator

The quintessential small town for family, business life and recreation. Hamilton is a charming beach town with an amazing village that has a unique blend of urban and rural qualities. Our downtown is located along the south shore of Hamilton Lake and offers many restaurants, merchants and professional services.

Hamilton is a great place to experience real community. Come walk the nature trails and see the amazing wildlife, "Dink the kitchen" on our 6 pickleball and tennis courts, rent your favorite ride whether it be an e-bike, boat or golf cart or just enjoy a leisurely walk down the boardwalk and view the beautiful Millpond Fountain.

Although we have remained a small town, historically our population explodes in the summer months due to the appeal of our beautiful lake.

Don't miss your opportunity to live, work or play in Hamilton.
