ACTIVITIES OF DAILY LIVING (ADL's): Self-care activities such as bathing, dressing, eating, walking and all necessary activities required to function on a daily basis.

ACUTE: A word used for a serious and sudden condition that lasts a short time and is not chronic. Examples include a heart attack, pneumonia or appendicitis.

ADULT DAY CARE: Specialized care offered during business hours Monday through Friday, following the business model of child day care programs. Sometimes transportation is provided. Meals are included along with activities to promote socialization and physical and mental stimulation.

ADULT PROTECTIVE SERVICES (APS): The official agency mandated to receive, investigate, and respond to complaints of neglect and abuse of the elderly.

ADVANCE DIRECTIVES: Legal documents outlining how a person's medical decisions are to be handled including living will, power of attorney for health care and power of attorney for finances and may be part of a trust or estate plan.

AGING IN PLACE: The concept of remaining in one's home regardless of changes in health or care needs. This can take place in a senior living community or in one's home.

ALZHEIMER DISEASE: Common form of dementia - accounts for 70% of all dementia.

AMBULATORY: The ability to walk independently, including walking with the use of an assistive device such as a cane or walker; not bedridden.

ASSESSMENT: An evaluation performed of a person's mental, emotional and social capabilities.

ASSISTED LIVING or ASSISTANCE IN LIVING (AL): Housing for an elderly or disabled person that provides room, meals, transportation, housekeeping, medication management, laundry, social activities, and various levels of care.

BED HOLD: A reservation placed on a nursing home bed if a resident is only going to be hospitalized temporarily or on therapeutic leave. Bed holds are mostly needed by Medicaid patients to prevent another Medicaid patient from taking their place.

CERTIFIED NURSING AIDE (CNA): Provides assistance in daily living, including bathing, transfers and feeding.

CHRONIC: A word used for a condition that is long term and ongoing, and is not acute. Examples include diabetes, asthma, allergies and hypertension.

CONTINUING CARE RETIREMENT COMMUNITY (CCRC): A retirement community organized to provide care for all stages of aging. Independent living townhomes or apartments are offered, along with assisted living and nursing care.

COPAYMENT TIER: A tier usually represents the copayment level that applies to a certain formulary status and medication type (i.e., Tier 1: formulary/preferred generic, Tier 2: formulary/preferred brand, Tier 3: non-formulary/non-preferred brand, or Tier 4: specialty medications).

DEMENTIA: A group of symptoms that accompanies certain diseases; loss of thinking, remembering, and reasoning. May also include behavioral changes and moods.

DO NOT RESUSCITATE (DNR): A written and legal order that a patient does not want to be resuscitated.

DURABLE MEDICAL EQUIPMENT (DME): Reusable medical equipment such as walkers, wheelchairs and hospital beds. Medicare will pay for some DME, with doctor's approval.

DURABLE POWER OF ATTORNEY (DPOA): A legal document giving another person authority to make financial and legal decisions if a person becomes physically or mentally incapable.

ELDER LAW: A specialty practice of law for seniors, covering estate planning, wills, trusts, arrangements for care, Social Security and retirement benefits, and other senior specific legal assistance.

GERIATRICS: Medical specialty of treating the problems and diseases of old age.

HEALTH AND REHABILITATION CENTER: A residential setting in which a range of nursing and/or medical services are provided to residents.

HOME HEALTH CARE: Nursing or other medical care provided to an individual in their home.

HOSPICE CARE: A service that provides comfort and care at the end of life. (See also palliative care)

INDEPENDENT LIVING: A senior living community in which residents require minimal or no assistance with daily activities. Also referred to as self-sufficient living.

LIFE SPAN: The age that a person reaches.

LONG TERM CARE (LTC): A term used to describe care given in the form of medical and support services to people who have lost some or all of their capacity to function without assistance.

LONGEVITY: Duration of life beyond the normal expectation.

MANAGED CARE ORGANIZATION (MCO): An organization that sets up networks of contracts with doctors, hospitals, skilled nursing facilities and home health agencies, and bundles those contracts together to provide a discounted bundled offering of health care services.

MEDICAID: A jointly funded state and federal program to assist those with financial need with medical care. Due to joint funding, coverage varies for each state.

MEDICARE: Seniors age 65 and older and some disabled people younger than age 65 qualify for this national health insurance program administered by Medicare & Medicaid Services (CMS). Medicare does not pay for long-term care.

MEDICARE PART A: Also called Original Medicare, this is managed by Medicare and provides Medicare benefits and coverage for: inpatient hospital care, inpatient stays in most skilled nursing facilities, hospice and home health services.

MEDICARE PART B: Also called Original Medicare, this is managed by Medicare and provides Medicare benefits and coverage for: doctor and clinical lab services, outpatient and preventive care, home health care, screenings, surgical fees and supplies, and physical and occupational therapy.

MEDICARE PART C: Also called Medicare Advantage, this is a different way of getting Medicare Part A and Part B coverage. Medicare Advantage (MA) Plans combine Part A (hospital insurance) and Part B (medical insurance) together in one plan. They can also be combined with Part D prescription drug coverage creating a Medicare Advantage Prescription Drug (MA-PD) Plan. Generally these plans are offered as: health maintenance organizations (HMO plans), preferred provider organizations (PPO plans), private fee-for-service (PFFS plans) or special needs plans (SNP plans).

MEDICARE PART D: Prescription Drug Plan (PDP) can be a stand-alone plan (not joined with other insurance) or it may be combined with a Medicare Advantage Plan, also called a Medicare Advantage Prescription Drug (MA-PD) Plan. Part D plans help cover the cost of prescription drugs and may help lower prescription drug costs and protect against higher costs in the future.

MEMORY CARE: Special programs dedicated to caring for those with Alzheimer's disease, dementia or other cognitive impairments. Usually services include group activities, socialization and assistance with ADL's.

MOBILITY SERVICES: Gives seniors the ability to remain independent by staying mobile. These include: stair lifts, scooters, walkers, lift chairs, electric wheelchairs, standard wheelchairs, ramps and more.

**PATTEN MONUMENT OF INDIANA HAS BEEN CRAFTING MEMORIALS SINCE 1975
CELEBRATING 50 YEARS OF QUALITY, COMPASSION, AND CRAFTSMANSHIP.**

PLANNING AHEAD ISN'T ABOUT YOU.
IT'S ABOUT THE PEOPLE YOU LOVE.

More and more families are discovering the value of choosing a monument in advance. A memorial marker provides a permanent place for family and friends to gather, reflect, and remember. Without one, loved ones often regret not having a lasting connection or a place to visit.

At Patten Monument of Indiana, we guide you through the process with care and simplicity. Planning now ensures your wishes are honored—and your family isn't left with difficult decisions later.

How to Get Started in 3 Simple Steps

1. Meet with us — We'll listen to your wishes and answer questions.
2. Select a design — Choose from traditional, contemporary, or custom memorials.
3. Put it in place — Your monument is completed and set with care.

It's that easy.

How long is my driver's license valid?

Your driver's license or identification card expires at midnight on your birthday. If your birthday falls on a day on which all BMV branches are closed in your county, your driver's license or identification card will expire at midnight on the next business day.

- Six years if you are younger than 75 years of age (\$17.50 renewal)
- Three years if you are at least 75 years of age and younger than 85 years of age (\$11 renewal)
- Two years if you are at least 85 years of age (\$7 renewal)

You must pass a vision screening to get a license or permit, even if you are renewing or amending your existing license or permit. An operator knowledge test is not required when you renew a driver's license, unless you have accumulated six or more points on your driver record since your previous renewal or your license has expired for over 180 days.

Requirements to renew an expired driver's license:

- Expired less than 180 days — \$6 fee and pass a standard vision screening
- Expired 180 days to 3 years — \$6 fee and pass written test and a standard vision screening
- Expired more than 3 years — \$6 fee and pass a written test, driving test, and a standard vision screening

Real ID

Beginning May 7, 2025 a Real ID-compliant driver's license, permit or identification card will be required to board commercial airplanes or enter certain federal facilities. If you have a star in the upper right-hand corner of your driver's license, permit or identification card, you are Real-ID compliant.

To upgrade to Real ID, all customers must visit a BMV branch and bring original versions or certified copies of required documents, which include:

- One document proving your identity; and
- One document proving your lawful status in the United States; and
- One document proving your Social Security number; and
- Two documents proving your Indiana residency.

If your current name does not match your identity document due to a name change(s) (marriage, adoption, court order, etc), you may need to provide additional government-issued documents to support any or all name changes.

Visit REALID.IN.gov for more information and a complete list of approved documents.

HEARING AIDS

Before you buy a cell phone, you should try different brands and models to see which works best for you, according to the Food and Drug Administration. Some cell phones can cause radio frequency interference with hearing aids, so the user hears high-pitched whistling sounds, buzzes or static. The Federal Communications Commission now requires cell phone manufacturers to test and rate their wireless handsets' hearing aid compatibility using the American National Standards Institute (ANSI) C63.19 standard. These ratings give an indication of the likelihood a cell phone may interfere with hearing aids: the higher the rating, the less likely the cell phone-hearing aid combination will experience undesired interference.

IDENTITY THEFT REMINDERS

- Do not give out personal information over the phone or online.
- Ignore phishing emails asking for you to divulge personal data.
- Ignore phone calls and emails from another country.
- Your credit card number can be used by scammers who know the zip code is needed at unattended credit card terminals, such as gasoline pumps. The next time a sales clerk asks for your zip code for marketing purposes, simply decline.
- Do not post personal information, such as your zip code, date of birth or other identifiers that could be stolen, on social media.
- Do not use passwords such as names, dates or locations a scammer could obtain from your social media accounts.
- Think twice before joining a birthday club that gives you a free dessert or discount on your purchases because scammers can pair that information up with other data they've obtained about you to steal your identity.
- Do not carry important documents such as your passport or social security card.

INSURANCE

Most health insurance plans do not cover you once you leave the U.S. Contact your insurance provider to see what is covered when traveling and ask what happens if you get sick, does it cover pre-existing conditions, accidents, medical, dental, prescriptions and emergency evacuation.

You may also want to look into travel insurance in the event you need to cancel your trip, miss your connection, your flight is cancelled, weather protection at your destination, terrorism coverage, you get sick or injured on your trip, baggage is delayed or lost, your passport is lost, or your travel company files bankruptcy.

MEDICINE DISPOSAL

Keeping medication in your house puts you and your family at risk, which is why it's important to safely store the medication you need, and dispose of unused or leftover medication. Proper disposal and storage protects against accidental poisoning, prescription drug overdose or death, illegal use or theft, and contamination of water resources.

PRECAUTIONS FOR PACEMAKER WEARERS

Based on current research, cell phones do not seem to pose a significant health problem for the vast majority of pacemaker wearers. Still, people with pacemakers may want to take some simple precautions.

- Hold the phone to the ear opposite the side of the body where the pacemaker is implanted to add extra distance between the pacemaker and the phone.
- Avoid placing a turned-on phone next to the pacemaker implant (for example, don't carry the phone in a shirt or jacket pocket directly over the pacemaker).

PREVENTING MEDICARE FRAUD

- Visit only your personal doctor, hospital or clinic for medical help. Trust only them to make referrals for special equipment, services or medicine.
 - If someone calls and tries to threaten or pressure you into something, hang up!
 - If someone comes to your door and says they are from Medicare and they need your Medicare number, shut the door.
 - Never sell your Medicare number.
 - Never provide a salesperson with your doctor’s name or number.
 - Never show anyone your medical or prescription records without first talking to your doctor or pharmacist.
 - Do not leave mail in your mailbox for more than one day. People can steal personal information right out of your mailbox.
 - Rip up or shred your Medicare papers and other important documents before throwing them away.
 - Remember, Medicare does not sell anything.
 - Always check your Medicare Summary Notice (MSN) for charges for something you did not get, billing twice for the same thing, and services that were not ordered by your doctor.
- Information from Senior Medicare Patrol.

BE A HERO. SAVE A LIFE.

Todd, multiple organ transplant recipient, and his wife, Carrie.

A donor saved Todd's life in 2008, when he received the first of many lifesaving organ transplants. Todd's wife, Carrie, calls her husband her "Miracle Man." After receiving this amazing gift, both Todd and Carrie are now dedicated to raising awareness about organ donation. **Just one organ donor can save eight lives.** And anyone can say "yes" to organ donation, no matter their age or health restrictions. Learn more about how you can help at DonateLifeIndiana.org.

* The Forbes Best-In-State Wealth Advisor ranking, developed by SHOOK Research, is based on in-person and telephone due diligence meetings and a ranking algorithm that includes client retention, industry experience, review of compliance records, firm nominations, and quantitative criteria, including: assets under management and revenue generated for their firms. Portfolio performance is not a criterion due to varying client objectives and lack of audited data. Neither Forbes nor SHOOK Research receives a fee in exchange for rankings.
