

Please Drive Safely

- During the holiday travel season, check weather conditions before a trip and be prepared for potential inclement weather.
 - Check your vehicle, including tire pressure, engine belts and hoses, fluid levels and windshield wipers.
 - Allow extra time and be prepared to slow down and use caution in existing work zones.
 - Expect the unexpected. Unscheduled restrictions are possible due to crashes, disabled vehicles or other incidents.
 - Please rest before traveling – fatigue is a serious risk.
 - Buckle up and obey speed limits.
 - Never drive while impaired. Arrange for a designated driver.
 - Pack an emergency prep kit that includes items such as extra drinking water, snacks, flashlight, blankets, warm clothing and a first-aid kit. Learn more at azdot.gov/KnowSnow.
 - Don't forget prescription medications and cellphone charger in case of an unscheduled closure.
 - Help protect first responders along our highways. Move over or slow down for vehicles with flashing lights, including disabled cars and trucks.
-
- Check on highway conditions by visiting ADOT's Traveler Information site at az511.gov or by calling 511.
 - ADOT updates are also available on X ([@ArizonaDOT](https://twitter.com/ArizonaDOT)).

Additional weekend freeway restriction information listed on ADOT's website: azdot.gov – under ADOT News.
