

Hello residents,

We will be delivering the packages to the front doors throughout the day. The packages that will be delivered are those that arrived before August 23rd, 2022.

If there is no answer, we will be putting it inside the apartment. We have well over 300 packages between both buildings at the moment and with very minimal storage space to put everything. The delivery will only take place for today and moving forward, we have instructed delivery couriers that the front office will not be accepting any more packages and they will be delivering directly to doors. If you have anything important arriving we recommend going to your delivery service's website to schedule a pick-up at the nearest location, scheduling a time where you know you will be home and there is also an amazon hub located in front of Circle K on the corner of Speedway and Park avenue for your convenience.

Best,

Sol y Luna Management
