

NEW HAMPSHIRE SECRETARY OF STATE
David M. Scanlan

To: David Scanlan, Secretary of State
 From: Appointed Audit Team for the September 2024 Primary Election
 Date: Friday, September 13, 2024
 RE: **September 2024 Primary Election – Audit of Electronic Ballot Counting Devices**

Audit Report – 2024 State Primary Election

Overview:

The audit of electronic ballot counting devices was determined successful by the appointed audit team, with all results within expected margins.

The Audit of the 2024 State Primary Election was conducted on 8 electronic ballot counting devices across 8 polling locations in accordance with S.B. 489 (2024). Secretary of State David Scanlan selected an additional 2 electronic ballot counting devices across 2 polling locations in accordance with Ballot Law Commission Order 2023-3.

Polling Location	Date of Audit	Authority	Type of Device	Serial Number
Dover Ward 3	Sept. 12, 2024	S.B. 489 (2024)	AccuVote	85345
Laconia Ward 2	Sept. 12, 2024	S.B. 489 (2024)	AccuVote	81171
Lebanon Ward 2	Sept. 12, 2024	S.B. 489 (2024)	AccuVote	77351
Litchfield	Sept. 12, 2024	S.B. 489 (2024)	AccuVote	21157
Londonderry	Sept. 11, 2024	BLC Order 2023-3	VotingWorks	SC-09-019
Loudon	Sept. 11, 2024	BLC Order 2023-3	VotingWorks	SC-09-020
Milford	Sept. 12, 2024	S.B. 489 (2024)	AccuVote	82757
Sandown	Sept. 12, 2024	S.B. 489 (2024)	AccuVote	81726
Walpole	Sept. 12, 2024	S.B. 489 (2024)	AccuVote	43462
Winchester	Sept. 11, 2024	S.B. 489 (2024)	VotingWorks	SC-09-003

Audit locations were randomly selected after all ballot counting device memory cards and election definition packages were programmed. S.B. 489 (2024) required the selection of one electronic ballot counting device in each of the randomly selected locations. In those polling locations with multiple electronic ballot counting devices, the selected device was the device with the highest number of cast ballots at the time the Secretary of State’s representative delivered the audit location notification letter to that polling location’s election officials.

For those devices audited under BLC Order 2023-3, Secretary of Scanlan selected two polling locations which used the VotingWorks electronic ballot counting device. For each of the

NEW HAMPSHIRE SECRETARY OF STATE David M. Scanlan

remaining audited polling locations, the random selection was based on criteria determined by the Secretary of State.

All audits remained strictly confidential until Election Day. Once all notification letters were delivered by the Secretary of State's representatives to the audit locations' election officials, the selected audit locations were announced to the public via press release. The press release contained the location, date, and time for all audits. Audits were required by law to be completed by Friday, September 13, 2024 at 12:00 P.M. with this accompanying report of results. All audits were open to the public.

Only those ballots counted by the electronic ballot counting device were audited. Audit equipment procured by the Secretary of State's office processed the paper ballots for each audited device. This report documents the comparison between the audit equipment's report of ballots cast and the results of the relevant device. A random sampling of 50 ballots – or 2% of all ballots cast, whichever amount was larger – processed by the selected ballot counting device was physically examined against the voter's choices recorded by the audit equipment.

Random Selection:

For the September 10, 2024 State Primary Election, the AccuVote and VotingWorks devices are, at this time, the only electronic ballot counting devices certified for use in a New Hampshire election. S.B. 489 (2024) requires the Secretary of State to "randomly select not less than 8 ballot counting devices used by towns or city wards to be audited." In making this selection, "[t]he secretary of state may divide towns or city wards into groups for the selection based on criteria such as the device vendor or estimated number of election day ballots to be processed." This selection is non-public, and the selection must "be made after the ballot counting device memory cards have been programmed."

The Secretary of State confirmed all AccuVote memory cards and all VotingWorks election definition packages were programmed on Monday, August 26, 2024. At that time, all polling locations audited under S.B. 489 (2024) were selected.

Random selection criteria for the 2024 State Primary Election was based first on the type of electronic ballot counting device used in that polling location and then on the total number of voters registered at that polling location. A spreadsheet of all polling locations and the number of registered voters at those polling locations was created. All hand-count polling locations were culled out from the spreadsheet, and the polling locations which use a VotingWorks device were separated from AccuVote polling locations and placed in a separate spreadsheet.

Secretary Scanlan determined that one random VotingWorks location would be audited and seven random AccuVote locations would be audited. AccuVote polling locations were then

NEW HAMPSHIRE SECRETARY OF STATE
David M. Scanlan

divided by four to create four equal-sized quartiles organized from the largest number of registered voters to the smallest number of registered voters.

The below tables were created for the random selection:

VotingWorks Selection

#	Town	# of Reg. Voters

NEW HAMPSHIRE SECRETARY OF STATE
David M. Scanlan

From the above tables, one random selection was made from the VotingWorks table, two random selections were made from the AccuVote first quartile, two from the second quartile, two from the third quartile, and one from the fourth quartile.

The total number of polling locations in each selection table were placed into Google’s random number generator. Random numbers were generated for each required selection. The polling location with the corresponding random number from that quartile was selected, and one device within each of those polling locations was audited. For those polling locations with multiple devices, the chosen device was the device with the highest number of cast ballots at the time the Secretary of State’s representative delivered the audit notification letter.

Random # Generated	Polling Location	Device	# of Registered Voters
15	Winchester	VotingWorks	2411
11	Milford	AccuVote	9959
28	Litchfield	AccuVote	5954
11	Sandown	AccuVote	4380
22	Dover Ward 3	AccuVote	3869
23	Lebanon Ward 2	AccuVote	2930
32	Walpole	AccuVote	2637
29	Laconia Ward 2	AccuVote	1417

Audits:

On election day, representatives of the Secretary of State’s office arrived at the selected audit locations by 11:00 A.M. and delivered an audit notification letter to those election officials. Representatives remained at the polling locations, paying close attention to the selected electronic ballot counting device and ensuring no hand-count ballots or ballots from other devices were commingled with the audited ballots. Ballots were sealed in provided plastic ballot boxes.

The audit of the selected VotingWorks devices took place on Wednesday, September 11, 2024 at 1:00 P.M. The audit of the selected AccuVote devices took place on Thursday, September 12, 2024 at 8:00 A.M. All audits took place at New Hampshire Archives and Records Management.

Dover Ward 3 – AccuVote Audit Results

There were three additional Democratic ballots counted by the audit equipment versus the number of Democratic ballots recorded on the AccuVote long results tape, resulting in consistent discrepancies of up to three additional ballots cast for a Democratic candidate.

NEW HAMPSHIRE SECRETARY OF STATE

David M. Scanlan

Based on past audits and recounts, additional ballots not counted by the AccuVote may be attributed to jams in the device throughout election day.

All discrepancies are within expected margins. There were no discrepancies detected in the physical examination of 50 random ballots against the voter choices recorded by the audit equipment.

Exhibit 1 fully documents all votes credited to a candidate by the election day results versus the audit equipment. The below tables are a documentation of all races with discrepancies (highlighted in yellow) in Dover Ward 3.

Loudon – VotingWorks Audit Results

No discrepancies were detected between the election day results and the audit equipment. There were no discrepancies detected in the physical examination of 50 random ballots against the voter choices recorded by the audit equipment.

Exhibit 6 fully documents all votes credited to a candidate by the election day results versus the audit equipment.

Milford – AccuVote Audit Results

There was one additional Republican ballot counted by the audit equipment versus the number of Republican ballots recorded on the AccuVote long results tape, resulting in consistent discrepancies of one additional ballot cast for a Republican candidate. Based on past audits and recounts, additional ballots not counted by the AccuVote may be attributed to jams in the device on election day.

All discrepancies are within expected margins. There were no discrepancies detected in the physical examination of 50 random ballots against the voter choices recorded by the audit equipment.

Exhibit 7 fully documents all votes credited to a candidate by the election day results versus the audit equipment. The below tables are a documentation of all races with discrepancies (highlighted in yellow) in Milford.

Race: Republican – Governor

Candidate	Election Day Results	Audit Equipment	Discrepancy
Shaun Fife	9	9	0
