

We the undersigned citizens of Belknap County respectfully petition the Belknap County Delegation to exercise its removal authority under RSA 661:9 IV and remove Gunstock Area Commissioners Peter Ness and David Strang for their gross mismanagement that led to the resignation of the entire Gunstock executive management team and several other key employees, which in turn has led to the closure of the facility.

It should be noted that we as citizens are joining two other currently sitting commissioners, Jade Wood and Doug Lambert, who have publicly demanded the resignations of Ness and Strang. Ms. Wade publicly declared that the current closure of Gunstock was directly caused by the two.

Our request is made in the hope that the removal of Ness and Strang will result in a return of the key managerial staff that has resigned. Otherwise, it is our fear that the community will lose a long treasured recreational area and the economy of our county will be irreparably damaged.
