

**2022 Belknap County Republican Committee
State Committee Members
Caucus Voter's Guide**

There are many Republicans in Belknap who are not happy with the current direction of the Belknap County Republican Committee (BCRC). A group of such disaffected Republicans have worked together and developed a slate of State Committee members who have agreed to work in the best interest of our Republican Party to "right the ship." Every candidate below has been carefully vetted and are committed to working together for the necessary correction. We ask that you vote for ALL candidates listed, because every person you do not vote for is a possible vote for the other team. If THEY win, we will have two more years of the same as we have just experienced. Or worse.

**List of Candidates for Belknap County election to NHGOP
