

# TEXTURED METAL PANELS

LESS GLARE, MORE GRIP.

## WHY CHOOSE TEXTURED?

Our textured panels are very popular for good reason.

The unique textured surface redirects sunlight for less glare than smooth panels. Plus the textured panels show less "oil canning" which makes for a more attractive roof.

Contractors like it because the texture provides more grip during installation than smooth panels.

Because the textured coating is baked into the metal coil at the factory, our textured panels carry the same 40-year film integrity warranty as our smooth panels.
