A WORKMASTER™ Series 255 sub-compact tractor could be the perfect fit for you. Its 25-hp engine, three-point hitch and standard rear and mid-mount PTOs make it ideal for yard, landscape and property maintenance jobs. Its compact design makes it a cinch to maneuver, and a simple dual-pedal transmission eliminates shift levers and clutches. Just press and go.

Small but mighty—and ready to prove itself. Stop by today to see a WORKMASTER™ 255 or learn more at newholland.com.
