Lancaster's Premier Ballet Academy

We welcome you to Viktor Yeliohin International Ballet Academy! We are a dance studio located in downtown Lancaster that is dedicated to the education and enjoyment of the art of dance.

Our classes are taught by trained professionals with varied backgrounds and excellent teaching credentials. We offer classes in Ballet, Pointe, Modern, Jazz, Tap, Hip-Hop, and Music, Movement & Make Believe for dancers as young as 3 years old. We accommodate the needs of our students, regardless of their skill level, by providing a safe and welcoming atmosphere for all dancers. All of our teachers are college educated in dance and pedagogy and treat each student equally, striving for all of our dancers to feel encouraged, nurtured, and at home in our school.

VYIBA's teaching philosophy is to help students develop their talent and passion for dance. Our educational priority is to nurture the future of professional ballet by polishing our dancers' technique, encourage their artistry, and help them mature as artists. We have alumni at the Bolshoi Ballet School, Dresden Semperoper Ballet, Mariinsky Ballet, and BalletMet. We welcome everyone to our school and equally provide all of our students with serious ballet training. As part of our curriculum, each student has the opportunity to learn and perform in classical ballets such as Swan Lake, Sleeping Beauty, Le Corsaire, Raymonda, Don Quixote, and Paquita.

Our school has the best performances around. From our annual performance of The Nutcracker with the renowned Donetsk Ballet of Ukraine, to our pre-professional performing companies who work with high caliber choreographers, to our end of the year Gala celebration, VYIBA produces dance performances of the best quality. In addition, our dancers have the opportunity to participate in the Youth America Grand Prix and the International Ballet Competition in Kiev, Ukraine.

VYIBA offers group classes or private lessons in all genres, as well as adult ballet classes. You can register for classes per month, year, or just come in for a drop-in class! Open Enrollment and registration for the 2019-2020 season visit www.vyballet.com.

Follow and like us on Facebook and Instagram @vyballetacademy.

Receive \$10 off Releve tickets when you reserve Nutcracker and Releve tickets at the same time. For more information on Releve visit vyballet.com. Email us at vynutcrackertickets@gmail.com or call the studio at (717) 517-9837

If you'd rather watch a performance than be a performer, make sure to visit vyballet.com for schedule updates on VYIBA's annual performance of The Nutcracker with the Donetsk Ballet of Ukraine. A portion of the proceeds benefits Releve Nonprofit for Children's Health.

Every Stain has a Story!

Our business is located in the heart of a small community, which has become a pillar of who we are. We integrate this into our business model by hiring within the community, giving bigger discounts and running promotions, the proceeds of which go directly to community non-profits.

Here at The Rug Beater, we treat every home and business like it is our own. We see the importance of taking the time to educate our clients on their flooring, in order to make it possible for them to make decisions they are comfortable with. We seek to provide every client with the industry's most thorough cleaning available and promise to deliver on exactly what they are paying for and exceed their expectations.

Our ability to give undivided attention to each client is attributable to our amazing employees. We recognize that we do not exist without them. It would simply be impossible to achieve our philosophy on client relations without honest, reliable, dedicated employees. We count ourselves lucky to have employees who have transformed our work environment into a family-like atmosphere. This atmosphere has helped us achieve consistent growth over our 30 years of business and has us convinced that there truly is no place like Lancaster County to run a business.

Better Auctions, Better Service, Just Plain Better.

PCI Auctions East Coast was established over five years ago, with only four part-time employees working in a converted barn. Since then, we've grown into a staff of 20 full-time employees and have over 20,000 square feet of warehouse space that is constantly filled with equipment.

Our staff is responsible for facilitating removal, remarketing, and sales of 8-10 complete restaurants and businesses every week. We help major restaurant chains such as Joe's Crab Shack, Pizza Hut, Subway, Ruby Tuesday, Dunkin' Donuts and more recently Au Bon Pain remove and liquidate their equipment.

We donate time and money to community entities, are a donor to the Manheim Chamber of Commerce, Lancaster Chamber of Commerce, sponsor local Mini-THONs, and conduct charity auctions for the Lancaster Education Foundation. We have a passion for supporting

local businesses and are always looking for opportunities to help them succeed. Our team assists businesses with startup, as well as helping existing businesses with improvements at an affordable cost. We also help businesses looking to renovate, change locations, or move on to other projects liquidate their existing equipment in order to put money back into their pockets.

At PCI we have a large bidder and client base, both local and nationwide, to whom we provide a highly specialized product and service. Our staff is available around the clock to answer questions regarding our business, processes and any other questions a prospective client or customer may have. We pride ourselves in our expertise and ability to provide better service and better auctions than you'll find elsewhere. If you're in the market to buy or sell and are looking for the best in quality and customer service, we guarantee that PCI Auctions East Coast is the right choice for you!

Fox Country Sheds owners Jeannie and Adam Kontis, and their son Alex, welcome you to stop by their sales office.

FOX COUNTRY SHEDS
537 E. 28th Division Highway, Lititz
717-626-9560 • www.FoxSheds.com

For over 20 years, Fox Country Sheds has built a reputation for quality hand-crafted sheds. The Kontis family - Adam and Jeannie Kontis and their son Alex - have continued that tradition as owners since 2008, manufacturing backyard storage sheds and prefabricated garages.

Not only do they build for wholesalers, they also sell directly to retail customers. They build customized sheds in many sizes, styles and colors to meet your storage needs. They will build a shed to match your home's siding, roof and can even add options such as a cupola or weathervane. There are pool house sheds, prefabricated garages, workshop sheds and of course garden sheds. Custom sheds can include specialty buildings such as concession stands or ticket booths. Some people use their custom sheds for home offices or art studios.

They also sell locally-made backyard Amish play sets and gazebos. You can add site preparation service for sheds, garages & gazebos or rubber mulch for play sets. Standard delivery of a pre-assembled shed, gazebo or playset is included for all local customers. For hard-to-access backyards, they will even provide a mule delivery service or build-on-site service in your yard.

You can customize and order directly on their website www.foxsheds.com. To find out more, call or check the website, Facebook or email to info@foxsheds.com. The retail sales office is open Mon.- Fri. 8 a.m.- 5 p.m. and on Sat. 10 a.m.- 2 p.m.

Celebrating 52 Years!

Yarnell Security Systems is your local UL Listed Central Station, installation and monitoring company. The Yarnell Companies are celebrating 52 years in business this year started by the late Harold Yarnell in 1967. Yarnell Security Systems is a full service, local alarm company with the oldest locally owned Central station. The company is 100% family owned by both US Veteran and women.

We are a family owned business that can be trusted. We make sure that we pay special attention to every customer's details. When you call our number 717-399-3900, 24 hours a day, 7 days a week you talk to a live person.

Your story is our story

8 W. King St., Lancaster

1704 Hempstead Rd., Lancaster

This year marks our company's 225th year of operation. The world has changed drastically since we first published The Lancaster Journal in a tavern on King Street in 1794, but our mission to be the best source of news and information for the residents of Lancaster County has not. We've been here through events and headlines that have shaped not just our county, but also our country and our world.

This year, while we celebrate our long history, we also want you to know we have our sights trained squarely on the future. The time to innovate and provide new insight and information for our readers and new opportunities for our advertisers is now.

Our team is energized to meet the challenges facing us and we know that we wouldn't be here without your loyalty and support, so we want to take this opportunity to say thank you.

We look forward to serving you for another 225 years.

Haller Enterprises

You'll Feel The Difference

Haller Enterprises was founded in 1981 by Rick Haller. Rick started the company with one van operating out of his garage. Fast forward 38 years. Haller now has over 350 employees and operates out of six branch locations in Central and Eastern Pennsylvania. Haller is committed to its mission - *Enriching Lives*. By providing homeowners and businesses with plumbing, heating, cooling, and electrical services, the whole Haller team lives out this mission every day. Their vision - *to redefine the contractor-customer relationship* - is what drives them to continuously offer innovative services and solutions that create an unparalleled customer experience.

Here are some of Haller's most recent innovations:

- **Smart Maintenance:** This new, one-of-a-kind product, Sensi Predict™, consists of 10 sensors that monitor 32 different functions on your heating/cooling system. It analyses the data from these sensors and compiles it into a report that is sent to the homeowner monthly. This report shows the health of the system and includes key metrics such as runtime, energy costs and filter status, and notifies the homeowner of possible future issues like a freezing coil or a compressor failure. If an urgent issue arises, an alert is sent to the homeowner with a simple explanation of the problem and recommended action. The same alert is also sent to the Haller team so proper action can be taken to resolve the issue quickly. Smart maintenance plans are also very affordable, starting at \$4 a month!

- **Expert Tech: Remote Assist:** Sometimes, smaller heating and cooling problems can be solved over the phone. To help with these smaller problems Haller added NATE certified heating/cooling technicians to their Customer Care Team. These technicians are ready and willing to talk on the phone or even video chat with homeowners to solve problems such as programming a thermostat or changing a filter. If they cannot fix the issue over the phone, the Expert Techs will make sure that they schedule a visit with the right technician that has the correct parts to complete the job as efficiently as possible.

- **XOi:** This new technology allows the technician on-site to record photos and videos of the work being performed that they can share with the customer. This is especially useful when a customer isn't present during a service call so they can see the work completed.

- **Same Day Repair Completion:** It's an industry challenge to complete repairs the same day. And

even though Haller's vans are stocked with parts frequently needed for repairs, in some cases the technician may need a different part for a specific problem. Many times this means having to schedule a second appointment once the part becomes available - wasting the homeowner's time and money. Haller wants to make life easier by striving to complete all repairs the same day. To do this they had to get creative. One way is by using Uber™ to transport parts from the distributors to the technician on-site. Another way is by empowering technicians who are close to one of their six warehouses or a distributor to retrieve the needed parts for themselves and return to complete the repair on the same day. A new way Haller completes repairs the same day is through their Expert Tech: Remote Assist program. If the homeowner's problem cannot be resolved over the phone, Haller's Expert Techs will make sure the right parts for the repair are on the technician's van before they arrive, eliminating the need for a return visit.

- **Moen Flo™:** This revolutionary new product from Moen™ gives homeowners control over their water systems and protects their home. Once installed, Flo™ will continuously check for leaks in the home and if detected, will shut off the water immediately to prevent damages. The Flo by Moen App™ also gives homeowners the ability to turn their water systems on and off remotely. The app also provides homeowners with water pressure levels, flow rate, and temperature in real time.

- **Easy Scheduling:** Haller offers 3 easy ways to schedule a service call or appointment:

- *BookHaller.com:* This website gives homeowners the option to pinpoint where in their home they are having issues and schedule a date and time for an appointment.

- *The Haller Enterprises app:* With Haller's app (available on Apple's App Store or Google Play) homeowners can schedule an appointment, record live video of an issue, get text confirmations, track their technician, pay their bill and even give a review all from their smartphones.

- *Over the Phone:* Call 888.625.1500 and speak with one of Haller's friendly Customer Care Team members to set up an appointment.

With these innovations, Haller continues to raise the bar by providing customers with unparalleled service and solutions. Next time you need a plumber, electrician, or heating and cooling specialist contact Haller. You'll feel the difference.

THE LAND WE LOVE

LANCASTER, PA

Our goal at GIANT Food Stores is to improve the lives of those around us — from our associates and their families to local farmers, children, and those in need.

We thrive on innovation, and we know that investing in our people, our communities and our planet is the key to a better future for all.
