

PROPOSED WAWA, MEDICAL FACILITY RAISES QUESTION OF COMMERCIAL WELL WATER USE IN PEQUEA TOWNSHIP

Businesses in Pequea Township could soon be able to tap into local well water instead of hooking up to a public water main. A Florida-based company, Ferfeldt Investments LLC, has proposed developing a Wawa, a urgent care and a potential car wash off of Route 272 and wants to use local well water. The zoning hearing board has denied the company's requests, though township supervisors will consider changing the zoning ordinance in July that would make it possible.
