Lancaster Chamber
THINK LOCAL
Discover the advantage

OCTOBER 12-13, 2017 - SPOOKY NOOK SPORTS

Lancaster Chamber

People | Business | Community

Join more than 1,000 fellow local professionals at this exciting annual networking & business building event

A Message from the Chamber's President & CEO

Dear Business Professional:

When you make purchases for yourself or for your business, where do you go first? While buying online may at times seem like the most inexpensive or convenient option, it is important to consider the long-term implications of sending our dollars elsewhere, instead of investing them in the businesses right here in our community. And when you do Think Local before making a purchase, you may be surprised at the innovative and cost-effective products and services available right here in our own backyard!

Studies show that every local purchase makes a positive impact on our business and broader communities. When we support local businesses:

- Money recirculates back into the community and can help fund non-profit and community organizations;
- There is an increase in business productivity and the creation of a better business climate, resulting in more employment opportunities;
- We are doing business with people we know, making future services, repairs or follow-ups simple and convenient;

nient;

- The economy and broader community become stronger and more vibrant;
- And our quality of life improves.

If you're looking for ways to expand your network of local business professionals, form collaborative partnerships with local companies and non-profit organizations, learn from successful business experts and get a first-hand look at the vast array of high-quality, innovative products and services being developed or already available right here in Lancaster County, then join us in Thinking Local at the Business Expo!

And while you're at it, join us in exploring all the new opportunities to help your business and our community at the Chamber.

Thank you for Thinking Local!

Tom Baldrige

Tom Baldrige, President & CEO

SOLUTIONS

You do have a choice. You can make a difference. Think Local!

Think Local is a Lancaster Chamber-led, community-wide initiative to improve our local economy by encouraging consumers and business decision makers to support local businesses when making purchases.

The primary goal of Think Local is to stimulate and accelerate the local economy by encouraging business decision makers and consumers to keep their dollars local, where the impact can be significant as dollars recirculate locally.

What are the advantages of Thinking Local?

- **More money stays in the community.** Money spent locally recirculates back into the community helping to fund non-profit and community organizations.

- **Local jobs are created and sustained.** Money spent locally increases business productivity and creates a better business climate, resulting in more employment opportunities.

- **The local economy and community are strengthened.** The cycle of creating and spending wealth locally helps to strengthen the economy and broader community.

- **Customer service is enhanced.** When you buy products locally, you are doing business with people you know, making any future services, repairs or follow-ups simple and convenient.

- **Our quality of life is improved.** Local business owners and their employees contribute financially and volunteer their time to support local organizations and charities, which directly impacts the broader community.

If your business is committed to Thinking Local first before making purchases, hiring local people, contributing to the local tax base and giving back to the local community, then a representative from your organization may sign the Think Local Declaration of Understanding at www.lancasterchamber.com/thinklocal. When you sign the Declaration, your business will receive rights to leverage the growing popularity of the Think Local brand by using the Think Local logo on your marketing materials, website, etc.

And if you're a consumer, look for the Think Local designation at the businesses and organizations in our area before you make a purchase. You'll be making a positive impact on the local economy and community with every dollar you spend.

Learn more about Think Local at www.lancasterchamber.com/thinklocal and on social media: #thinklocal.

THINK LOCAL
Discover the advantage

Lancaster Chamber: Thrive. Excel. Prosper!

The Lancaster Chamber is about helping people thrive, businesses excel and our community prosper. Since it first opened its doors 145 years ago, the Chamber has been a pro-business voice on big-picture issues impacting the region, collaborating with local organizations to identify opportunities and solutions to improve the Lancaster County business climate, economy and broader community.

COMMUNITY PROSPERITY HUB

The Chamber's Community Prosperity Hub works with Investors and the community to leverage the collective expertise, passions and resources of local organizations and business professionals to create a flourishing Lancaster County for all.

Investors in the Community Prosperity Hub make a positive impact on their organizations, the economy and the broader community by engaging with the Chamber in opportunities like:

- Community conversations and solution groups around issues such as the heroin epidemic, immigration and the workforce, affordable housing and more key dimensions of prosperity identified through the Chamber's Prosperity Indicators initiative.

- Pro-business climate advocacy in critical areas like pension and tax reform, improving local transportation infrastructure, etc.

- Leading community initiatives like Think Local and #IMPACTLANCASTER that are designed to ensure Lancaster County continues to become a desirable place to live, work and do business.

And much more.

To learn more about the community impact work of the Chamber and find out how your organization can make a difference by becoming an Investor in the Community Prosperity Hub, visit new.lancasterchamber.com or contact invest@lancasterchamber.com. Stop by booths 48 and 55 to learn more.

BUSINESS SUCCESS HUB

The Chamber's Business Success Hub is open to all area organizations (no membership required) and is focused on connecting companies with the solutions they need to excel, from professional development and training to networking events to workforce development resources and more.

Organizations and business professionals who engage with the Business Success Hub can grow themselves and their businesses by taking part in opportunities like:

- Professional development and training opportunities led by subject matter experts on topics ranging from sales growth to unemployment compensation to digital marketing and more.

- Leadership development opportunities, such as the Excellence Exchange program, Professional Women's Forum, Leadercast, New Manager Academy, etc.

- Special marketing and advertising opportunities

And much more.

To learn more about the many opportunities available to grow yourself and your organization through the Business Success Hub, visit new.lancasterchamber.com. Stop by booths 48 and 55 to learn more.

BB&T BUSINESS CENTER

The BB&T Business Center, powered by the Lancaster Chamber, is the new “front door” for Lancaster County business. This exciting and easily-accessible space at 115 E. King St., Lancaster, is a hub of connectivity, programming and resources for people and organizations.

In addition to hosting many of the Chamber’s events and programs, area organizations can also rent space in the Business Center for their own meetings and events, and individuals can utilize the Business Center to get away from the office, get some work done and grab a cup of coffee or a bite to eat from the Canteen Vending Services café. The space even features a rotating art exhibit — the Gallery @115 East King Curated by LSJ Studios — where

Lancaster County artists display and sell their work.

No matter where you decide to plug in, we hope you will engage with us as we work together to build Lancaster County into a more prosperous community for ALL of us to call home!

“ALIGNING MARKETING WITH YOUR REVENUE AND SALES GOALS”

Business owners and leaders: Gain the knowledge and tools to ensure your marketing teams, plans and tactics are directly in sync with your revenue goals. The program will provide pragmatic insights and takeaways for successful implementation for diverse types of companies!

MEET YOUR PRESENTER

Kathryn Ross, founder KROSS Strategies, is a revenue-focused leader with a unique blend of expertise based on 25 years of B2B and B2C experience with and for Fortune 500 companies, agencies, media entities as well as small- to mid-sized companies. An entrepreneurial spirit rooted in analytical best practices, her emphasis is in the successful development, implementation and execution of sales, marketing and new business models that lead directly to increased revenue

growth and results for start-up, mid-size and nationally known leaders in manufacturing, pharmaceuticals, financial services, technology, luxury products, environmental services, building supplies and interior furnishings.

“HOW SUSTAINABILITY SELLS”

Discover the advantages of how sustainable practices help you sell more, and better position your company in the marketplace. In addition to establishing a baseline for defining sustainability, we will share knowledge on:

- How to incorporate sustainability into your sales proposition
- How sustainability can differentiate you from your competition and attract a whole new market
- How adding products and services in the sustainability space can grow your sales
- How a business or corporate decision to raise your own commitment to

sustainability will “sell well” across all media channels

- How sustainability principles, when practiced, will make your business a better place to work, and lead to greater productivity

MEET YOUR PRESENTER

Robert Kramer is the CEO of Advanced Solar Industries (ASI) in New

Holland — the longest-operating solar installation company in Pennsylvania. In his role, Robert sees himself and ASI as not only installing solar solutions, but also helping educate the business community on the benefits and critical importance of renewables. ASI also assists in the installation and operation of renewable solutions in developing countries.

RKL eSolutions & YOU

Protecting Your Data.

Meet advancing data threats & compliance head-on with RKL.

Technology is evolving at a rapid pace, and today's businesses leverage these advances to reach more customers, deliver faster service and gain a competitive advantage. As your company embraces new technology, it is equally critical to stay ahead of the corresponding threats to data and information.

From vulnerability testing to deficiency identification to security improvement, our experts deliver solutions that strengthen your company's existing cybersecurity efforts and develop new programs that meet the highest industry and regulatory standards.

Contact us today for an IT infrastructure and cybersecurity assessment.
