

Michael Stinley

Summary

Strategic and results-driven finance leader with over 9 years of experience directing high-volume corporate accounting operations and financial reporting. Deep technical background in U.S. GAAP, revenue recognition standards (ASC 606), and complex multi-entity consolidation. Proven track record of strengthening SOX-aligned controls and leveraging AI-assisted tools to automate manual workflows and accelerate month-end close cycles in fast-paced environments.

Work Experience

Corporate Controller

Mar 2026 – Present

Aline Accounting Partners

- Led implementation of NetSuite ERP system, serving as primary contact to ensure successful deployment and adoption.
- Designed and managed accounting policies and close processes, improving consistency and efficiency across reporting cycles.
- Developed earnout schedules for partner firms acquired through M&A transactions, ensuring accurate post-acquisition financial reporting.
- Oversaw all activities impacting monthly financial statements, including Accounts Receivable, Payroll, Accounts Payable, cash management, tax filings, and audit communications.
- Partnered with senior leadership on business planning and execution, providing financial insight to support strategic decision-making.

Manager, General Ledger Accounting

May 2025 – Mar 2026

UGI UTILITIES, DENVER, PA (NYSE: UGI)

- Directed the monthly multi-entity consolidation and general ledger close process for complex utility operations, ensuring accuracy in financial reporting while consistently meeting regulatory deadlines.
- Strengthened SOX-aligned controls and 404 compliance frameworks, coordinating internal and external audit support to maintain zero material weaknesses.
- Automated manual accounting workflows by implementing a new ERP system for margin reporting, reducing monthly processing time by 4 hours through custom automated reporting modules.
- Lead technical accounting evaluations for revenue recognition under ASC 606, performing quarterly contract reviews to ensure compliance with U.S. GAAP standards.
- Oversaw the preparation and fair presentation of external filings with the SEC, FERC, and PUC, serving as the subject matter expert for general ledger accounting during audits.

Manager, Revenue & Supply Accounting

January 2023 – May 2025

UGI UTILITIES, DENVER, PA

- Directed forecasting and bad debt accounting, including ongoing evaluation and enhancement of reserve methodologies through advanced financial technology solutions to increase accuracy.
- Led cross-functional coordination with Rates and Gas Supply departments, serving as the primary liaison for annual PGC filings and high-volume transaction analysis.
- Assisted the financial reporting integration for an acquired Gas Utility in West Virginia, establishing a US GAAP-compliant control framework and scaling accounting operations post-acquisition.

Senior Supervisor Supply Accounting

August 2021 – January 2023

UGI UTILITIES, DENVER, PA

- Directed special technical accounting projects, including the implementation of new procedures and AI-assisted tools to streamline complex regulatory requirements.
- Managed audit support initiatives for supply accounting, providing critical data for external auditors and internal compliance teams.

Senior Financial Reporting Accountant

November 2018 – August 2021

GRAHAM PACKAGING, LANCASTER, PA

- Directed multi-entity consolidation using Hyperion Financial Management (HFM) for multi-national manufacturing operations across North America, South America, and Europe.
- Worked closely with the Company's private investors to assist in the technical accounting transition from IFRS to U.S. GAAP standards following a corporate carve-out, reconfiguring entity structures and reporting hierarchies in HFM to prepare for IPO readiness.
- Strengthened Treasury functions by assuming ownership of cash forecasting, improving liquidity visibility and supporting high-stakes strategic decision-making.

Experienced Assurance Associate

August 2016 – October 2018

PRICEWATERHOUSECOOPERS LLP, PHILADELPHIA, PA

- Executed audit procedures for ASC 606 revenue recognition standards for large multi-national clients, ensuring full compliance with new accounting requirements.
- Performed carve-out audit procedures for a \$130 billion merger transaction, delivering technical accounting analysis and inventory valuation under tight timelines.
