

Ligonier Beach Park Committee Member Commitment Agreement

As a member of the Ligonier Beach Park Committee, I am committed to the betterment of this community and the future of Ligonier Beach Park. In accepting this role, I willingly agree to the following:

Community First I will keep the best interest of the entire Ligonier Valley community at the center of every discussion and decision. Personal agendas, past grievances, and individual preferences will not take precedence over what is best for the community as a whole.

Respect for Others I will treat every fellow committee member, community stakeholder, and member of the public with dignity and respect — in meetings, in public settings, and on social media. Disagreement is welcome; disrespect is not.

Constructive Engagement I will come to every meeting prepared to contribute solutions, not obstacles. I understand that healthy debate and differing opinions strengthen outcomes — but that criticism without a constructive alternative does not serve this committee or this community.

Positive Attitude I will approach this work with optimism and an open mind. I will give new ideas fair consideration before rendering judgment, and I will champion the potential of this property rather than dwell on its limitations or its past.

Willing Spirit I will show up — not just to meetings, but to events, cleanup days, and community activities that support the mission of this committee. I understand that meaningful progress requires hands-on participation, not words alone.

Confidentiality and Integrity I will handle committee discussions with discretion. I will not misrepresent the committee's work, decisions, or direction in public or on social media. I will speak accurately and fairly about this process at all times.

Commitment to the Process I will honor the work that has already been done — the DCNR-funded study, the public input process, and the Final Concept Design — as the legitimate, community-driven foundation from which this committee operates. I will build on that foundation rather than relitigate it.

Accountability I understand that failure to uphold these commitments may result in my removal from the committee. I accept that standard willingly, because I believe this work is too important to be undermined from within.

By signing below, I affirm that I have read, understood, and agreed to this Commitment Agreement, and that I am honored to serve the Ligonier Valley community in this role.
