NOTICE OF PACIFIC GAS AND ELECTRIC COMPANY'S REQUEST TO CHANGE RATES FOR ITS 2027 GAS COST ALLOCATION AND RATE DESIGN PROCEEDING (CARD) APPLICATION (A.25-11-006)

WHY AM I RECEIVING THIS NOTICE?

On November 21, 2025, Pacific Gas and Electric Company (PG&E) submitted its 2027 Gas Cost Allocation and Rate Design (CARD) application to the California Public Utilities Commission (CPUC). This application outlines how PG&E proposes to divide the costs of providing gas services, such as distribution, transmission and storage, among different customer groups. The 2027 CARD application is part of the regular regulatory process and helps determine how gas rates are structured.

WHY IS PG&E REQUESTING THIS RATE CHANGE?

PG&E is not requesting new costs in this application. Instead, it is proposing how to allocate costs that are included in its proposed 2027 General Rate Case, which is currently under review by the CPUC. These costs relate to maintaining and operating the gas system, including pipelines and storage facilities. The 2027 CARD application updates how these costs are divided among customer groups based on how each group uses the system. This helps ensure that rates are fair and reflect the actual cost of providing service to different types of customers.

HOW COULD THIS AFFECT MY MONTHLY GAS RATES?

Bundled gas customers receive transmission, distribution and procurement services from PG&E.

Based on rates currently in effect, the bill, including the average monthly climate credit, for a typical non-CARE bundled residential customer averaging 30 therms per month would decrease from \$81.27 to \$76.96, or -5.3%. Actual impacts will vary depending on usage. Detailed rate information will be sent directly to customers in a bill insert in December 2025.

HOW DOES THE REST OF THIS PROCESS WORK?

This application will be assigned to a CPUC Administrative Law Judge who will consider proposals and evidence presented during the formal hearing process. The Administrative Law Judge will issue a proposed decision that may adopt PG&E's application, modify it or deny it. Any CPUC Commissioner may sponsor an alternate decision with a different outcome. The proposed decision, and any alternate decisions, will be discussed and voted upon by the CPUC Commissioners at a public CPUC Voting Meeting.
