him which I later loaded into Evidence.Com at the El Dorado District Attorney's Office. The following is a synopsis that call.

Coach **Interview**

 said he was an Assistant Coach for the team and was the closest to the incident which occurred on May 2, 2022, on Mike Clark Field in Amador. He estimated he was only two or three feet from the incident. He was in right field working with the catchers on the first base line approximately mid-way through that day's practice. His son, was not present at the time of the incident because he was practicing. said that Coach Ryan arrived at the field in uniform and called over to Ryan and said that was interested in law enforcement.

 and Coach Ryan were talking when returned to working with the other children. said his back was turned when he heard a pop and immediately turned around. saw the probes in gray sweatpants. did not call out and did not see any injury or blood. did not flinch, and described his demeanor as being a cool kid. asked if he was okay, and he replied that he was. said he did not know how the taser works but thought it was just caught on pants. could not say if the probes was in leg but described it as hanging from the right pant leg just above the knee. thought the probe was moving with movement of the pants material. The head Coach, came over and the three of them, Ryan, and asked at least twenty times if was okay and if the probe broke his skin. said it had not and that he was okay each time. said went back to practice and he had not noticed any issues with him and there was no real discussion after between the coaches that he remembered.

 had also attended every game and practice since then without complaint. Several weeks later saw mother inside a local grocery store, and she asked him how could improve his game. We finished our conversation and I asked to call me back if he had any other questions.

On 06/07/2022 at 1030 hrs., I called back to get further clarification on the incident.
