As the head coach, I waited with for his mother. While they waited, asked if he was going to tell his mother. said he was not because she was going to be mad. When mother pulled up, asked to tell his mom about what happened for him. agreed. When climbed into the car, told his mom that there was a little incident with Ryan the Sheriff's Deputy who was showing his taser. Somehow the taser went off and was snagged on pants. His mom told that had been enthralled with tasers. All talks about at home is tasers. She went on and told him that when they lived in lone would always ask cops about their tasers. She said she was glad that was finally able to see how one worked. She asked if he was hurt in front of replied he was not.

The next day was a game day and approached asked if he was okay and he replied that he was. thought it was all over with. believed it happened just after 6 pm that day. He remembered the team practiced quite a while after that. said all of them asked multiple times if he was okay and said there was nothing wrong with him. He did not seem distraught; was going to have him sit on the bench if something happened to him but described attitude was the same. thought there was no injury and said there was no way to tell unless they pulled pant leg up. was not limping or appeared injured after the incident. The team even hit and ran bases after and seemed perfectly fine. said at no time was the taser probe stuck in leg at all. described that the probe had just been snagged on the pants and when it was pulled out it pulled out a thread. You could tell where it had been but there was no hole. did not remember who pulled out the probe from pants. It was either him or Ryan as it happened over a month ago. I asked if cried out when they pulled the taser off his pant leg. said no and never said he had been hurt. was smiling and laughing that it happened. He wasn't upset but just worried about telling his mom. said she played it off like it was no big deal also. said Ryan was upset and was the kind of person who would jump in front of a bullet for the kid. It would be the last thing he would want to happen.. never saw any barbs and described it as the size of an eraser. He did not see where the other probe went. Ryan said his taser misfired when asked him what happened. Ryan was distraught and
