Criminal Investigation

upset and left after it happened. was worried about Ryan because he is an emotional person. Ryan had been working and was dressed in his full uniform and driving his cop car. He had stopped by for only about ten minutes. said that mom had recently pulled him off of the team. wanted his mom to know he would never hold what happened against even though he and Ryan are friends. said he feels bad for everyone involved. wondered why a criminal investigator was looking into the case since Ryan had no ill intent and thought it might have something to do with the upcoming election. I told him that the El Dorado District Attorney's Office was asked to investigate the case so the process was unbiased and we ended the call.

*End of Statement*

On 06/07/2022 at approximately 1550 hrs., Coach returned my call. I audio recorded my interview with him and loaded it into Evidence.Com at the El Dorado District Attorney's Office. The following is a synopsis of that interview.

**Coach      Interview**

Ryan was in the outfield with a couple of the kids and was in the infield practicing hitting. heard a loud pop and at first was not sure what it was. did not hear anyone yell out. He thought at first it was car accident on the roadway. It wasn't until he looked over at Ryan with addressing the issue. Within a few minutes, walked over with who was a few steps ahead of him. described everyone present as kind of chuckling about what had happened. could not remember if the probe is attached to right or left thigh area in the pantleg. He saw Ryan pulling one of wires from pants. did not see where the second probe went. thought the probe just snagged on pants. said by the time he walked up to Ryan had already been pulling out the wire and putting it away. did not see where the expended probes went after the incident but knew they were not left on the baseball field. He assumed Ryan had taken them. He described Ryan pulling out the probe with one hand on pant leg and one hand holding the cord.
