

At-Home Preschool Kit

Due to the current pandemic, the Amador Child Care Council is aware that many children were not able to attend preschool this year. We would like to provide a **FREE Preschool Kit** for families to assist their preschoolers with early learning at home. You can plant the seed for a lifelong love of learning in your preschooler with interesting preschool activities. Simple, easy and fun activities can set the foundation for better learning and development. Our Preschool Kit will come with all you need to help your child with early learning activities in language development, math, social emotional well-being and other foundational skills. The activities will build your preschoolers' confidence and unlock their imaginations.

Below is a link to custom-made short videos from our local child care educators which will walk you through how to use your kits.
