#### 3. Other Information:

**PRECAUTIONARY/PREPAREDNESS ACTIONS...** A Flash Flood Watch means that conditions may develop that lead to flash flooding. Flash flooding is a very dangerous situation. You should monitor later forecasts and be prepared to take quick action if flooding is observed or a Flash Flood Warning is issued. If you come to a closed or flooded road...turn around! Don't drown!

Drivers use caution, do not drive past road closure signs/barricades.  
"Turn around, Don't drown."

Everyone may view up to the minute road closures at <https://www.hc911.org/responses.php>  
Select "Road Closures" as the first filter.
