What Amendment 1 actually does?

Right now, like almost everything in a democracy, Iowa's income tax rates are set by a majority vote of your elected legislators. Amendment 1 would change the constitution to require a two-thirds supermajority in both chambers to ever raise income taxes on wealthy individuals or corporations — no matter what Iowa needs, no matter what voters want, no matter what emergency comes.

CONSTITUTIONAL AMENDMENTS · 1

Shall the following amendment to the Constitution be adopted?

Summary: Provides that any bill to increase the individual income tax rate or the corporate income tax rate, or the rate of any other type of tax based upon income or legal and special reserves, shall require the affirmative votes of at least two-thirds of the members elected to each house of the legislature for passage. Further, the two-thirds majority vote requirement applies to the passage of a bill to establish a new tax on any type of income or legal and special reserves imposed by the state. The requirement excludes taxes imposed at the option of a local government. A lawsuit challenging the proper enactment of a bill under this section must be filed no later than one year following the enactment.
