Subject: Critical Race Theory

Non-NU Email

To the Nebraska Board of Regents,

I am disappointed to hear from Governor Ricketts that the Nebraska Board of Regents intends on issuing a statement to oppose the teaching of Critical Race Theory in curriculum.

I am a CEO and community leader in Omaha and I write to you as a private citizen. Critical race theory is defined as an academic discipline that seeks to critically examine the law as it intersects with issues of race and racism. To condemn or deny college students from learning about the history of racism and how it's shaped our country is an act of white supremacy, and hate has no place in Nebraska.

I would encourage you to seek out a a better understanding of CRT prior to issuing a statement to ensure you are fully informed.

Thanks
Rebecca Stavick
