Subject: Proposed Regent CRT statement

Non-NU Email

Dear Mr. Stark,

As a citizen in District 2 which you represent on the U of N Board of Regents, and as a graduate of both UNL and Omaha, I urge you to speak out against the political stunt that Governor Ricketts and Regent Pillen proposed concerning Critical Race Theory.

Neither of them have expressed what CRT truly discusses and in fact highlights the need for further discussion of the issues associated with race in this country. Their desire to limit the scope of historical review of the United States to a singular political ideology at the university level, let alone any educational level, is wrong. In fact, this proposal they seek to force on the Regents, and thus the university, should be included in any university course which explores the concepts of authoritarianism and fascism.

Thank you for your time and consideration in this matter.

Dave Clements
