Subject: Board statement on Critical Race Theory

Non-NU Email

Old White woman here. Can all your board members define what critical race theory is? Did you have an in-depth conversation about what it means? Did you invite an advocate of the subject to speak to the Board and answer your questions? The statement the Board released should embarrass the University.. It was poorly written and does not reflect well on a university. Glad that my family graduated from more enlightened universities and colleges: Princeton, University of Virginia, University of Richmond, Wake Forest University and Roanoke College.
