Can't remember myself. But Sept 9 I plan on going with you to Ag Builders, Also you sent me a notice of you and Liz sponsoring an event for Dr Li and happy to come. Last I appreciate your sending a reply for the letter as I too have received about 20 replies not all against the proposal and have not been sure to respond so you note helps me. I have been lobbied hard on the AD position. See you Friday. Thanks Jack

Hi Jack. I think you sent me an email about joining you for a discussion of energy. I cannot find the email. My system does these chains and they are making me crazy. In the meantime I have had close to 50 letters about CRT.

Could you let me know again what you were asking in the previous email.

Hope you are doing well.

Best, b
