Subject: Critical Race Theory

Regent Stark,

My name is Joshua Stevenson. I am a resident of Papillion, Nebraska and a 2021 graduate of the Nebraska College of Law. I am writing today to express my displeasure with Regent Pillen's proposed resolution on Critical Race Theory. The resolution is simplistic, conclusory, inaccurate, political posturing. It is antithetical to the project of any University for the Regents to dictate from on-high the content of curriculum. It is inappropriate for the Board of Regents waste the time of the University carrying the ball for some partisan project. The characterization of resolution is a vast oversimplification of the project that legal scholars have undertaken in the 50 years of critical race theory. The resolution's conclusions are arrived upon without evidence or understanding.

Please dismiss this silly distraction. The Regents have more important things to focus on.

V/R

Joshua Stevenson, J.D.
